MATERIAL SAFETY DATA SHEET

Lactate Dehydrogenase Ex. Microbial

Section 1: Product and Company Identification

Material name **Lactate Dehydrogenase Ex. Microbial**
Synonyms Lactate dehydrogenase
Product No. LADE-70-1411
Product description Lyophilized powder containing enzyme (protein) and carbohydrate.
Product use Enzyme reagent for laboratory use.

Emergency Telephone Numbers
Americas: +1-760-476-3962
Europe, Middle East
& Africa: +1-760-476-3961
Asia Pacific: +1-760-476-3960
Access code: 333512

Distributor
Sekisui Diagnostics (UK) Ltd
50 Gibson Drive
Kings Hill, West Malling
Kent ME19 4AF UK
Phone: 44 (0) 1732 220022

Corporate Headquarters
Sekisui Diagnostics LLC
31 New York Avenue
Framingham, MA 01701
USA
Phone: 508-661-1835

Section 2: Hazards Identification

OSHA regulatory status This preparation is classified as hazardous under U.S. OSHA 29 CFR 1910.1200; E.C. Directive 1999/45/EC; Canadian R.S. 1985, c. H-3; U.K. CHIP 2002 No. 1689; and/or U.N. GHS ST/SG/AC 10/30. Refer to Sec. 15, Regulatory Information, for details regarding hazard classification.
None of the components present in this preparation at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen.

Precautionary statements CAUTION! The chemical, physical and toxicological properties of this preparation have not been thoroughly characterized. Avoid contact with eyes and skin. Do not ingest or inhale. Preparation appearance: white to off-white powder.

Potential health effects:

- **Routes of exposure** Occupational exposure routes may include eye contact, skin contact and inhalation.
- **Eyes** No data available. Eye exposure may cause irritation, redness and itching.
- **Skin** No data available. Skin contact may cause irritation, dryness and redness.
- **Inhalation** No data available. Although there is no evidence that the enzyme(s) in this preparation induces specific respiratory hypersensitivity, all proteins are potential respiratory allergens and may result in respiratory sensitization in certain individuals after repeated and/or prolonged inhalation exposure, producing mild to severe symptoms similar to pollen allergy or asthma, including mucous membrane or eye irritation, itching of the skin or eyes, sneezing, nasal or sinus congestion, coughing, and tightness in the chest. These symptoms may develop as late as 12 hours after exposure.
- **Ingestion** No data available.
- **Chronic effects** No data available. Repeated inhalation may result in respiratory sensitization.
- **Target organs** Unknown.

Potential environmental effects No data available.

Section 3: Composition / Information on Ingredients

Ingredient Name	CAS #	EC #	% (wt/wt)
Dextran	9004-54-0	232-677-5	80 - 90
EC R-Phrases: None	**EC Hazard Class:** None		
Lactate dehydrogenase	9001-60-9	232-617-8	10 - 20
EC R-Phrases: None	**EC Hazard Class:** None		

NOTE - Lactate dehydrogenase - Enzyme source: Microbial, Enzyme Commission number: 1.1.1.27

Section 4: First Aid Measures

First aid procedures:

- **Eye contact** Immediately flush eyes with plenty of tepid water for 15 minutes while separating eyelids with fingers. Remove contact lenses if worn. Obtain medical attention if needed or if symptoms, such as redness or irritation persist.
- **Skin contact** In case of contact, flush skin with cool water and remove contaminated clothing. Obtain medical attention if needed or if irritation or other symptoms develop.
- **Inhalation** If inhaled, move from exposure area to fresh air. Seek medical attention if breathing becomes difficult or if cough or other symptoms develop.
- **Ingestion** In case of ingestion, contact a poison control center or physician for instructions.

Section 5: Fire Fighting Measures

Flammable properties	Material may burn when exposed to sufficient heat.
Suitable extinguishing media	Use extinguishing media suitable for surrounding fire, such as carbon dioxide, chemical foam, dry chemical or water spray.
Unsuitable extinguishing media	Unknown.
Specific hazards arising from the chemical	Toxic gases may be generated by combustion, including. carbon monoxide (CO) and carbon dioxide (CO_2).
Standard protective equipment and precautions for firefighters	Firefighters should wear NIOSH-approved or equivalent Self-Contained Breathing Apparatus and full protective gear.

Section 6: Accidental Release Measures

Personal precautions	Avoid physical contact with material and avoid generating or inhaling dust. Ensure adequate ventilation. Wear Personal Protective Equipment (PPE) as indicated in Section 8. Wash hands thoroughly after handling.
Environmental precautions	No information available.
Methods and materials for containment and clean-up	Do not dry sweep powder. Use HEPA-filtered vacuum, if available, otherwise wet mop to clean up a powder spill. Decontaminate the spill site following standard procedures. Dispose of materials in accordance with all applicable federal, state, local and provincial environmental regulations, per Section 13.

Section 7: Handling and Storage

Handling	Follow good laboratory hygiene practices. See Section 8, Engineering Controls. Minimize contact and contamination of personal clothing and skin. Wash hands thoroughly after handling.
Storage	Store desiccated at -20°C (-4°F). Do not store with incompatible substances; see Section 10.

Section 8: Exposure Controls / Personal Protection

Exposure guidelines	There are no ACGIH, NIOSH, OSHA or country-specific occupational exposure limits currently established for components present in this preparation at concentrations equal to or greater than 1% (0.1% if carcinogen).
Engineering controls	Use in well ventilated areas. If handling large quantities or there is a potential for dust or aerosol generation, use local exhaust ventilation. Facilities storing or using this material should be equipped with an eyewash fountain and a safety shower.

Personal protective equipment:

Eye / face protection	Wear appropriate protective chemical safety glasses.
Skin protection	Wear lab coat or other protective garments. Remove contaminated clothing promptly.
Hand protection	Wear chemical resistant protective gloves.
Respiratory protection	A respirator is not required under normal conditions of use.
General	Follow company-specific safety procedures.

Section 9: Physical and Chemical Properties

Appearance	White to off-white powder
Odor	Not available
pH	Not applicable
Melting point/Freezing point	Not available / Not applicable
Boiling point	Not applicable
Flash point	Not applicable
Evaporation rate	Not applicable
Flammability/explosivity limits in air, upper	Not applicable
Flammability/explosivity limits in air, lower	Not applicable
Vapor pressure	Not available
Density	Not available
Solubility	Water-soluble
Partition coefficient (n-octanol/water)	Not available
Auto-ignition temperature	Not available

Section 10: Chemical Stability and Reactivity Information

Possibility of hazardous reactions	Hazardous polymerization will not occur.
Chemical stability	Stable under ordinary conditions of use and storage. See Section 7.
Conditions to avoid	Unknown.
Incompatible materials	Unknown.
Hazardous decomposition products	Thermal decomposition may lead to release of irritating gases and vapors.

Section 11: Toxicological Information

Acute effects:

Toxicological data - Selected LD50s and LC50s

Dextran	9004-54-0	Oral LD50 Rat: >3 g/kg

Local effects	No data available.
Chronic effects	No data available.
Sensitization	No data available.
Carcinogenicity	No data available.
Mutagenicity	No data available.
Reproductive effects	No data available.
Teratogenicity	No data available.

Section 12: Ecological Information

Ecotoxicity	No data available.
Persistence and degradability	No data available.
Bioaccumulation potential	No data available.
Mobility in environmental media	No data available.

Section 13: Disposal Considerations

Methods of disposal	Dispose of unused product, spilled material and waste in accordance with all applicable federal, state, local and provincial environmental and hazardous waste regulations.

Section 14: Transport Information

Basic shipping description	Not classified as dangerous goods. Not regulated per IATA and DOT regulations.

Section 15: Regulatory Information

US Federal Regulations:

Inventory - United States - Section 8(b) Inventory (TSCA):

Dextran	9004-54-0	XU
Lactate dehydrogenase	9001-60-9	XU

International Regulations:

Inventory - Australia - Inventory of Chemical Substances (AICS)		
Dextran	9004-54-0	Present
Lactate dehydrogenase	9001-60-9	Present
Inventory - Canada - Domestic Substances List (DSL)		
Dextran	9004-54-0	Present
Lactate dehydrogenase	9001-60-9	Present
Inventory - Canada - Organisms on the Non-Domestic Substances List (NDSL)		
Lactate dehydrogenase	9001-60-9	IUB #1.1.1.27
Inventory – China		
Dextran	9004-54-0	Present
Inventory - European Union - European Inventory of Existing Commercial Chemical Substances (EINECS)		
Dextran	9004-54-0	232-677-5
Lactate dehydrogenase	9001-60-9	232-617-8
Inventory - Korea - Existing and Evaluated Chemical Substances		
Dextran	9004-54-0	KE-09622
Lactate dehydrogenase	9001-60-9	KE-21806
Canadian Hazardous Products		
WHMIS Status	Non-controlled	
European Communities Dangerous Substances/Preparations		
EC Hazard Class	None	
Risk Phrases	None	
Safety Phrases	None	

Section 16: Other Information

Further Information:
This MSDS has been prepared in accordance with the ANSI Z400.1 format. Every effort has been made to adhere to the hazard criteria and content requirements of the U.S. OSHA Hazard Communication Standard, Canadian Controlled Products Regulation (CPR), UK Chemical Hazard Information and Packaging Regulations, European Communities REACH Regulation, and UN Globally Harmonized System of Classification and Labelling of Chemicals.

MSDS Origination Date: 12 July, 2005
Version #: 3
Revision Date: 30 November, 2012
