

Version 1.4 Revision Date 2016-02-12

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

**Product information** 

Product Name : Hydrocarbon Fluid Type III

Material : 1024838, 1024839, 1024841, 1024840

Use : Fuel

Company : Chevron Phillips Chemical Company LP

Specialty Chemicals 10001 Six Pines Drive The Woodlands, TX 77380

#### **Emergency telephone:**

### **SECTION 2: Hazards identification**

### Classification of the substance or mixture

This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

#### **Emergency Overview**

Danger

Form: Liquid Physical state: Liquid Color: Colorless Odor: Mild, Hydrocarbon

OSHA Hazards : Flammable Liquid, Moderate eye irritant, Moderate skin irritant,

Reproductive hazard, Target Organ Effects, Aspiration hazard

Classification

: Flammable liquids, Category 2

SDS Number:100000014263 1/13

Version 1.4 Revision Date 2016-02-12

Skin irritation, Category 2 Eye irritation, Category 2A Reproductive toxicity, Category 2

Specific target organ systemic toxicity - single exposure,

Category 3, Central nervous system

Specific target organ systemic toxicity - repeated exposure,

Category 2, Auditory organs Aspiration hazard, Category 1

#### Labeling

Symbol(s) :

Signal Word : Danger

Hazard Statements : H225: Highly flammable liquid and vapor.

H304: May be fatal if swallowed and enters airways.

H315: Causes skin irritation.

H319: Causes serious eye irritation.

H336: May cause drowsiness or dizziness.

H361: Suspected of damaging fertility or the unborn child. H373: May cause damage to organs (Auditory organs) through

prolonged or repeated exposure.

#### Precautionary Statements : Prevention:

P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been

read and understood.

P210 Keep away from heat/sparks/open flames/hot surfaces.

No smoking.

P233 Keep container tightly closed.

P240 Ground/bond container and receiving equipment.

P241 Use explosion-proof electrical/ ventilating/ lighting/

equipment.

P242 Use only non-sparking tools.

P243 Take precautionary measures against static discharge.

P260 Do not breathe dust/fume/gas/mist/vapor/spray.

P264 Wash skin thoroughly after handling.

P271 Use only outdoors or in a well-ventilated area.

P280 Wear protective gloves/ protective clothing/ eye

protection/ face protection.

#### Response:

P301 + P310 IF SWALLOWED: Immediately call a POISON

CENTER or doctor/ physician.

P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with

water/shower.

P304 + P340 + P312 IF INHALED: Remove person to fresh

air and keep comfortable for breathing. Call a POISON

CENTER or doctor/ physician if you feel unwell.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P308 + P313 IF exposed or concerned: Get medical advice/

attention.

P331 Do NOT induce vomiting.

SDS Number:100000014263

Version 1.4 Revision Date 2016-02-12

P332 + P313 If skin irritation occurs: Get medical advice/

attention.

P337 + P313 If eye irritation persists: Get medical advice/

attention.

P362 Take off contaminated clothing and wash before reuse. P370 + P378 In case of fire: Use dry sand, dry chemical or

alcohol-resistant foam to extinguish.

Storage:

P403 + P233 Store in a well-ventilated place. Keep container

tightly closed.

P403 + P235 Store in a well-ventilated place. Keep cool.

P405 Store locked up.

Disposal:

P501 Dispose of contents/ container to an approved waste

disposal plant.

Carcinogenicity:

IARC No ingredient of this product present at levels greater than or

equal to 0.1% is identified as probable, possible or confirmed

human carcinogen by IARC.

NTP No ingredient of this product present at levels greater than or

equal to 0.1% is identified as a known or anticipated carcinogen

by NTP.

ACGIH No ingredient of this product present at levels greater than or

equal to 0.1% is identified as a carcinogen or potential carcinogen

by ACGIH.

### **SECTION 3: Composition/information on ingredients**

Synonyms : Rubber Swelling Test Fluid Type III

Molecular formula : Mixture

Component	CAS-No.	Weight %
2,2,4-Trimethylpentane (Isooctane)	540-84-1	60 - 70
Toluene	108-88-3	30 - 40

#### **SECTION 4: First aid measures**

General advice : Move out of dangerous area. Show this material safety data

sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled : If unconscious place in recovery position and seek medical

advice. If symptoms persist, call a physician.

In case of skin contact : If skin irritation persists, call a physician. If on skin, rinse well

with water. If on clothes, remove clothes.

In case of eye contact : Flush eyes with water as a precaution. Remove contact

lenses. Protect unharmed eye. Keep eye wide open while

rinsing. If eye irritation persists, consult a specialist.

SDS Number:100000014263 3/13

SAFETY DATA SHEET

# **Hydrocarbon Fluid Type III**

Version 1.4 Revision Date 2016-02-12

If swallowed : Keep respiratory tract clear. Do NOT induce vomiting. Do not

give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a

physician. Take victim immediately to hospital.

### **SECTION 5: Firefighting measures**

Flash point : -12.1 °C (10.2 °F)

Method: Tag closed cup

Autoignition temperature : No data available

Suitable extinguishing

media

: Alcohol-resistant foam. Carbon dioxide (CO2). Dry chemical.

Specific hazards during fire

fighting

: Do not allow run-off from fire fighting to enter drains or water

courses.

Special protective

equipment for fire-fighters

: Wear self-contained breathing apparatus for firefighting if

necessary.

Further information : Collect contaminated fire extinguishing water separately. This

must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case

of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed

containers.

Fire and explosion

protection

: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames,

hot surfaces and sources of ignition.

Hazardous decomposition

products

: Carbon oxides.

## **SECTION 6: Accidental release measures**

Personal precautions : Use personal protective equipment. Ensure adequate

ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low

areas.

Environmental precautions : Prevent product from entering drains. Prevent further leakage

or spillage if safe to do so. If the product contaminates rivers

and lakes or drains inform respective authorities.

Methods for cleaning up : Contain spillage, and then collect with non-combustible

absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to

local / national regulations (see section 13).

SDS Number:100000014263 4/13

Version 1.4 Revision Date 2016-02-12

#### **SECTION 7: Handling and storage**

#### Handling

Advice on safe handling

: Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.

Advice on protection against fire and explosion

: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

## **Storage**

Requirements for storage areas and containers

No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

#### SECTION 8: Exposure controls/personal protection

#### Ingredients with workplace control parameters

#### US

Ingredients	Basis	Value	Control parameters	Note
2,2,4-Trimethylpentane (Isooctane)	ACGIH	TWA	300 ppm,	
	ACGIH	TWA	300 ppm,	
Toluene	ACGIH	TWA	20 ppm,	BEI, A4,
	OSHA Z-2	TWA	200 ppm,	
	OSHA Z-2	CEIL	300 ppm,	
	OSHA Z-2	Peak	500 ppm,	
	OSHA Z-1-A	TWA	100 ppm, 375 mg/m3	
	OSHA Z-1-A	STEL	150 ppm, 560 mg/m3	

A4 Not classifiable as a human carcinogen

#### Immediately Dangerous to Life or Health Concentrations (IDLH)

Substance name	CAS-No.	Control parameters	Update
Toluene	108-88-3	Immediately Dangerous to Life or Health Concentration Value 500 ppm	1995-03-01

### **Engineering measures**

Adequate ventilation to control airborned concentrations below the exposure guidelines/limits.

SDS Number:100000014263 5/13

BEI Substances for which there is a Biological Exposure Index or Indices (see BEI® section)

Version 1.4 Revision Date 2016-02-12

Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

#### Personal protective equipment

Respiratory protection : Wear a supplied-air NIOSH approved respirator unless

ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as:. Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators

may not provide adequate protection.

Hand protection : The suitability for a specific workplace should be discussed

with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.

Eye protection : Eye wash bottle with pure water. Tightly fitting safety goggles.

Skin and body protection : Choose body protection in relation to its type, to the

concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate:. Flame retardant antistatic protective clothing. Workers should wear antistatic

footwear.

Hygiene measures : When using do not eat or drink. When using do not smoke.

Wash hands before breaks and at the end of workday.

#### **SECTION 9: Physical and chemical properties**

### Information on basic physical and chemical properties

**Appearance** 

Form : Liquid
Physical state : Liquid
Color : Colorless

Odor : Mild, Hydrocarbon

Safety data

Flash point :  $-12.1 \, ^{\circ}\text{C} \, (10.2 \, ^{\circ}\text{F})$ 

Method: Tag closed cup

Lower explosion limit : 1 %(V)

Upper explosion limit : 6.5 %(V)

SDS Number:100000014263 6/13

Version 1.4 Revision Date 2016-02-12

Oxidizing properties : no

Autoignition temperature : No data available

Molecular formula : Mixture

Molecular weight : Not applicable

pH : Not applicable

Freezing point : No data available

Pour point No data available

Boiling point/boiling range : 99 °C (210 °F)

Vapor pressure : 1.50 PSI

at 37.8 °C (100.0 °F)

Relative density : 0.75

at 15.6 °C (60.1 °F)

Water solubility : Negligible

Partition coefficient: n-

octanol/water

: No data available

Viscosity, kinematic : No data available

Relative vapor density : 3.69

(Air = 1.0)

Evaporation rate : 1

Percent volatile : > 99 %

## **SECTION 10: Stability and reactivity**

Chemical stability : This material is considered stable under normal ambient and

anticipated storage and handling conditions of temperature

and pressure.

### Possibility of hazardous reactions

Conditions to avoid : Heat, flames and sparks.

Materials to avoid : May react with oxygen and strong oxidizing agents, such as

chlorates, nitrates, peroxides, etc.

Hazardous decomposition

products

: Carbon oxides

Other data : No decomposition if stored and applied as directed.

SDS Number:100000014263 7/13

SAFETY DATA SHEET

# **Hydrocarbon Fluid Type III**

Version 1.4 Revision Date 2016-02-12

#### **SECTION 11: Toxicological information**

**Hydrocarbon Fluid Type III** 

Acute oral toxicity

: LD50: > 5,000 mg/kg

Method: Acute toxicity estimate

Hydrocarbon Fluid Type III

Acute inhalation toxicity

: LC50: > 20 mg/l Exposure time: 4 h Test atmosphere: vapor

Method: Acute toxicity estimate

Hydrocarbon Fluid Type III

Acute dermal toxicity

: LD50: > 5,000 mg/kg

Method: Acute toxicity estimate

Hydrocarbon Fluid Type III

Skin irritation

: May cause skin irritation in susceptible persons.

Hydrocarbon Fluid Type III

Eye irritation

: Eye irritation.

**Hydrocarbon Fluid Type III** 

Sensitization

: No adverse effects expected.

**Hydrocarbon Fluid Type III** 

Repeated dose toxicity

Method: Based on product or component testing, long term

repeated exposure may cause damage to the following

organs:

Target Organs: Auditory organs

Estimated based on individual component values.

Hydrocarbon Fluid Type III

Carcinogenicity

: Remarks: Not expected to be carcinogenic based on

individual component data.

Hydrocarbon Fluid Type III

Reproductive toxicity

: Suspected of damaging fertility or the unborn child.

**Hydrocarbon Fluid Type III** 

**Developmental Toxicity** 

: Suspected of damaging fertility or the unborn child.

**Hydrocarbon Fluid Type III** 

Aspiration toxicity

May be fatal if swallowed and enters airways.

Substances known to cause human aspiration toxicity hazards or to be regarded as if they cause human aspiration toxicity

hazard.

**CMR** effects

2,2,4-Trimethylpentane

: Mutagenicity: Tests on bacterial or mammalian cell cultures

SDS Number:100000014263 8/13

SAFETY DATA SHEET

# **Hydrocarbon Fluid Type III**

Version 1.4 Revision Date 2016-02-12

(Isooctane) did not show mutagenic effects.

Teratogenicity: Animal testing did not show any effects on

fetal development.

Reproductive toxicity: Animal testing did not show any effects

on fertility.

Toluene Carcinogenicity: Not classifiable as a human carcinogen.

Mutagenicity: Animal testing did not show any mutagenic

effects.

Teratogenicity: Some evidence of adverse effects on

development, based on animal experiments.

Reproductive toxicity: Some evidence of adverse effects on sexual function and fertility, and/or on development, based on

animal experiments.

Hydrocarbon Fluid Type III

**Further information** : Solvents may degrease the skin.

#### **SECTION 12: Ecological information**

## **Ecotoxicity effects**

**Toxicity to fish** : Very toxic to aquatic organisms, may cause long-term adverse

effects in the aquatic environment.

Toxicity to daphnia and other aquatic invertebrates

: Very toxic to aquatic organisms, may cause long-term adverse

effects in the aquatic environment.

## Toxicity to algae

2,2,4-Trimethylpentane : EL50: 2.943 mg/l

(Isooctane) Exposure time: 72 h

Method: QSAR modeled data

Toluene EC50: 134 mg/l

Exposure time: 72 h

Species: Chlamydomonas angulosa (Green algae)

Toxicity to daphnia and other aquatic invertebrates

: Very toxic to aquatic organisms, may cause long-term adverse

effects in the aquatic environment.

(Chronic toxicity)

Elimination information (persistence and degradability)

Biodegradability : This material is not expected to be readily biodegradable.

## **Ecotoxicology Assessment**

Acute aquatic toxicity

2,2,4-Trimethylpentane : Very toxic to aquatic life.

(Isooctane)

Toluene : Toxic to aquatic life.

Chronic aquatic toxicity

SDS Number:100000014263 9/13

Version 1.4 Revision Date 2016-02-12

2,2,4-Trimethylpentane

(Isooctane) Toluene : Very toxic to aquatic life with long lasting effects.

: Harmful to aquatic life with long lasting effects.

Results of PBT assessment

2,2,4-Trimethylpentane

(Isooctane) Toluene : Non-classified PBT substance, Non-classified vPvB substance

: Non-classified vPvB substance. Non-classified PBT substance

Additional ecological

information

: Very toxic to aquatic life with long lasting effects.

## **SECTION 13: Disposal considerations**

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : The product should not be allowed to enter drains, water

courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed

waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product.

Do not re-use empty containers. Do not burn, or use a cutting

torch on, the empty drum.

## **SECTION 14: Transport information**

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
