

**Sodium Methyl Mercaptide 27%**

Version 1.1

Revision Date 2015-02-24

SECTION 1: Identification of the substance/mixture and of the company/undertaking**Product information**

Product Name : Sodium Methyl Mercaptide 27%
Material : 1114497, 1114496, 1114495

Use : Chemical intermediate

Company : Chevron Phillips Chemical Company LP
Specialty Chemicals
10001 Six Pines Drive
The Woodlands, TX 77380

Emergency telephone:**Health:**

Website : www.CPChem.com

SECTION 2: Hazards identification**Classification of the substance or mixture**

This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

Emergency Overview**Danger**

Form: Liquid **Physical state:** Liquid **Color:** Colorless **Odor:** Pungent

OSHA Hazards : Flammable Liquid, Toxic by ingestion, Corrosive to skin,
Corrosive to eyes

Classification

: Flammable liquids , Category 2
Acute toxicity , Category 4 , Oral
Skin corrosion , Category 1A

Sodium Methyl Mercaptide 27%

Version 1.1

Revision Date 2015-02-24

Serious eye damage , Category 1

Labeling

Symbol(s)

Signal Word

: Danger

Hazard Statements

: H225: Highly flammable liquid and vapor.
 H302: Harmful if swallowed.
 H314: Causes severe skin burns and eye damage.

Precautionary Statements

: **Prevention:**
 P210 Keep away from heat/sparks/open flames/hot surfaces.
 - No smoking.
 P233 Keep container tightly closed.
 P240 Ground/bond container and receiving equipment.
 P241 Use explosion-proof electrical/ ventilating/ lighting/ equipment.
 P242 Use only non-sparking tools.
 P243 Take precautionary measures against static discharge.
 P264 Wash skin thoroughly after handling.
 P270 Do not eat, drink or smoke when using this product.
 P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.
Response:
 P301 + P312 IF SWALLOWED: Call a POISON CENTER or doctor/ physician if you feel unwell.
 P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
 P303 + P361 + P353 IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower.
 P304 + P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
 P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 P310 Immediately call a POISON CENTER or doctor/ physician.
 P363 Wash contaminated clothing before reuse.
 P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction.
Storage:
 P403 + P235 Store in a well-ventilated place. Keep cool.
 P405 Store locked up.
Disposal:
 P501 Dispose of contents/ container to an approved waste disposal plant.

Carcinogenicity:**IARC**

No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

Sodium Methyl Mercaptide 27%

Version 1.1

Revision Date 2015-02-24

NTP

No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

ACGIH

No ingredient of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

SECTION 3: Composition/information on ingredients

Synonyms : Methanethiol sodium salt
Sodium methanethiolate
SMM

Molecular formula : CH₃SNa

Component	CAS-No.	Weight %
Sodium Methanethiolate	5188-07-8	26 - 28
Sodium Hydroxide	1310-73-2	0 - 1.2

SECTION 4: First aid measures

General advice : Move out of dangerous area. Consult a physician. Show this material safety data sheet to the doctor in attendance.

If inhaled : If unconscious place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact : Immediate medical treatment is necessary as untreated wounds from corrosion of the skin heal slowly and with difficulty. If on skin, rinse well with water. If on clothes, remove clothes.

In case of eye contact : Small amounts splashed into eyes can cause irreversible tissue damage and blindness. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Continue rinsing eyes during transport to hospital. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed : Keep respiratory tract clear. Never give anything by mouth to an unconscious person. Take victim immediately to hospital.

SECTION 5: Firefighting measures

Flash point : 16 °C (61 °F)
Method: Tag closed cup

Sodium Methyl Mercaptide 27%

Version 1.1

Revision Date 2015-02-24

Autoignition temperature	: No data available
Suitable extinguishing media	: Alcohol-resistant foam. Carbon dioxide (CO ₂). Dry chemical.
Unsuitable extinguishing media	: High volume water jet.
Specific hazards during fire fighting	: Do not allow run-off from fire fighting to enter drains or water courses.
Special protective equipment for fire-fighters	: Wear self-contained breathing apparatus for firefighting if necessary.
Further information	: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containment. Use a water spray to cool fully closed containers.
Fire and explosion protection	: Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.
Hazardous decomposition products	: Sulfur oxides.

SECTION 6: Accidental release measures

Personal precautions	: Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.
Environmental precautions	: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
Methods for cleaning up	: Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

SECTION 7: Handling and storage**Handling**

Advice on safe handling	: Avoid formation of aerosol. Do not breathe vapors/dust. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against
-------------------------	---

Sodium Methyl Mercaptide 27%

Version 1.1

Revision Date 2015-02-24

static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. To avoid spills during handling keep bottle on a metal tray. Dispose of rinse water in accordance with local and national regulations.

Advice on protection against fire and explosion : Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Storage

Requirements for storage areas and containers : No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

SECTION 8: Exposure controls/personal protection**Ingredients with workplace control parameters****US**

Ingredients	Basis	Value	Control parameters	Note
Sodium Hydroxide	ACGIH	C	2 mg/m3	
	OSHA Z-1	TWA	2 mg/m3	
	OSHA Z-1-A	C	2 mg/m3	

Immediately Dangerous to Life or Health Concentrations (IDLH)

Substance name	CAS-No.	Control parameters	Update
Sodium Hydroxide	1310-73-2	Immediately Dangerous to Life or Health Concentration Value 10 milligram per cubic meter	1995-03-01

Engineering measures

Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

Personal protective equipment

Respiratory protection : Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as:. Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.

Sodium Methyl Mercaptide 27%

Version 1.1

Revision Date 2015-02-24

- | | |
|--------------------------|--|
| Hand protection | : The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. |
| Eye protection | : Eye wash bottle with pure water. Wear face-shield and protective suit for abnormal processing problems. |
| Skin and body protection | : Choose body protection according to the amount and concentration of the dangerous substance at the work place. Wear as appropriate: Flame retardant antistatic protective clothing. Rubber apron. Complete head face and neck protection. Footwear protecting against chemicals. |
| Hygiene measures | : When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday. |

SECTION 9: Physical and chemical properties**Information on basic physical and chemical properties****Appearance**

- | | |
|----------------|-------------|

Sodium Methyl Mercaptide 27%

Version 1.1

Revision Date 2015-02-24

Vapor pressure	: 45.00 MMHG at 29 °C (84 °F)
Relative density	: No data available
Density	: 1.146 G/ML at 30 °C (86 °F)
Water solubility	: Soluble
Partition coefficient: n-octanol/water	: No data available
Viscosity, kinematic	: No data available
Relative vapor density	: 1 (Air = 1.0)
Evaporation rate	: No data available
Percent volatile	: 73 %

SECTION 10: Stability and reactivity

Chemical stability	: This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
--------------------	--

Possibility of hazardous reactions

Conditions to avoid	: Heat, flames and sparks.
Materials to avoid	: May react with oxygen and strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.
Thermal decomposition	: No data available
Hazardous decomposition products	: Sulfur oxides
Other data	: No decomposition if stored and applied as directed.

SECTION 11: Toxicological information**Sodium Methyl Mercaptide 27%**

Acute oral toxicity	: LD50 Oral: 414.29 mg/kg Species: rat Method: Acute toxicity estimate
---------------------	--

Sodium Methyl Mercaptide 27%

Skin irritation	: Extremely corrosive and destructive to tissue. Information refers to the main ingredient.
-----------------	---

Sodium Methyl Mercaptide 27%

Version 1.1

Revision Date 2015-02-24

Sodium Methyl Mercaptide 27%

Eye irritation : May cause irreversible eye damage. Information refers to the main ingredient.

Sodium Methyl Mercaptide 27%

Sensitization : Contains no substance or substances classified as sensitizing.

Repeated dose toxicity

Sodium Methanethiolate : Species: rat
Application Route: Inhalation
Dose: 2, 17, 57 ppm
Exposure time: 3 mo
Number of exposures: 7 h/d, 5 d/wk
NOEL: 17 ppm
Lowest observable effect level: 57 ppm

Reproductive toxicity

Sodium Methanethiolate : Species: rat
Sex: male
Application Route: oral gavage
Dose: 5, 15, 45 mg/kg
Number of exposures: daily
Test period: 4 wks premating, mating and...
NOAEL Parent: > 45 mg/kg

Species: rat
Sex: female
Application Route: oral gavage
Dose: 5, 15, 45 mg/kg
Number of exposures: daily
Test period: 4 wks premating, mating and...
NOAEL Parent: > 45 mg/kg

Sodium Methyl Mercaptide 27%

Aspiration toxicity : No aspiration toxicity classification.

Further information

Sodium Hydroxide : No data available.

SECTION 12: Ecological information**Toxicity to fish**

Sodium Methanethiolate : LC50: 1.8 mg/l
Exposure time: 96 h
Species: Danio rerio (Zebra Fish)
Method: OECD Test Guideline 203

Toxicity to daphnia and other aquatic invertebrates

Sodium Methanethiolate : EC50: 1.32 - 2.46 mg/l
Exposure time: 48 h
Species: Daphnia magna (Water flea)
Method: OECD Test Guideline 202

Sodium Methyl Mercaptide 27%

Version 1.1

Revision Date 2015-02-24

Toxicity to algae

Sodium Methanethiolate : ErC50: 15 mg/l
Exposure time: 72 h
Species: Pseudokirchneriella subcapitata (green algae)
Method: OECD Test Guideline 201

Biodegradability

Sodium Methanethiolate : aerobic
64 %
Testing period: 28 d
Method: OECD Test Guideline 301D
Readily biodegradable, according to appropriate OECD test.

Ecotoxicology Assessment

Acute aquatic toxicity
Sodium Methanethiolate : Toxic to aquatic life.

Chronic aquatic toxicity
Sodium Methanethiolate : Toxic to aquatic life with long lasting effects.

Additional ecological
information : Toxic to aquatic life.

SECTION 13: Disposal considerations

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : Do not dispose of waste into sewer. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

SECTION 14: Transport information

The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the
