

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Date of issue: 08/20/2014

Version: 1.0

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product form : Mixture  
Product name : 6 Components in Nitrogen  
Product code : SG-2007-00667

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture : Test gas/Calibration gas.

#### 1.3. Details of the supplier of the safety data sheet

Air Liquide America Specialty Gases  
6141 Easton Rd  
Plumsteadville, PA 18949 - USA  
T 1.800.217.2688  
[www.airliquide.com](http://www.airliquide.com)

#### 1.4. Emergency telephone number

Emergency number : CHEMTREC: 1-800-424-9300

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification (GHS-US)

Compressed gas H280  
Repr. 1A H360  
STOT RE 1 H372

#### 2.2. Label elements

##### GHS-US labeling

Hazard pictograms (GHS-US) :

Signal word (GHS-US) : Danger

Hazard statements (GHS-US) : H280 - Contains gas under pressure; may explode if heated  
H360 - May damage fertility or the unborn child (Inhalation)  
H372 - Causes damage to organs (central nervous system) through prolonged or repeated exposure (Inhalation)  
CGA-HG10 - Asphyxiating even with adequate oxygen

Precautionary statements (GHS-US) : P202 - Do not handle until all safety precautions have been read and understood  
P260 - Do not breathe gas  
P271 - Use only outdoors or in a well-ventilated area  
P280 - Wear protective gloves, eye protection, face protection, protective clothing  
P304 + P340 - If inhaled: Remove person to fresh air and keep comfortable for breathing  
P308 + P313 - If exposed or concerned: Get medical advice/attention  
P403 - Store in a well-ventilated place  
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations  
CGA-PG02 - Protect from sunlight when ambient temperature exceeds 52°C (125°F)  
CGA-PG05 - Use a back flow preventive device in the piping  
CGA-PG06 - Close valve after each use and when empty  
CGA-PG10 - Use only with equipment rated for cylinder pressure  
CGA-PG14 - Approach suspected leak area with caution  
CGA-PG21 - Open valve slowly

#### 2.3. Other hazards

Other hazards not contributing to the classification : This product contains a chemical asphyxiant.

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### 2.4. Unknown acute toxicity (GHS-US)

No data available

## SECTION 3: Composition/information on ingredients

### 3.1. Substance

Not applicable

### 3.2. Mixture

| Name                  | Product identifier | %  | Classification (GHS-US)                                                                                               |
|-----------------------|--------------------|----|-----------------------------------------------------------------------------------------------------------------------|
| Nitrogen              | (CAS No)7727-37-9  | 94 | Compressed gas, H280                                                                                                  |
| Carbon monoxide       | (CAS No)630-08-0   | 1  | Flam. Gas 1, H220<br>Compressed gas, H280<br>Acute Tox. 3 (Inhalation:gas), H331<br>Repr. 1A, H360<br>STOT RE 1, H372 |
| Acetylene (dissolved) | (CAS No)74-86-2    | 1  | Dissolved gas, H280                                                                                                   |

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

- First-aid measures after inhalation : Remove to fresh air and keep at rest in a position comfortable for breathing. If you feel unwell, seek medical advice.
- First-aid measures after skin contact : Adverse effects not expected from this product.
- First-aid measures after eye contact : Adverse effects not expected from this product.
- First-aid measures after ingestion : Ingestion is not considered a potential route of exposure.

### 4.2. Most important symptoms and effects, both acute and delayed

- Symptoms/injuries : Symptoms similar to those listed under inhalation.
- Symptoms/injuries after inhalation : Headache. Asphyxiating even with adequate oxygen. If you feel unwell, seek medical advice.
- Symptoms/injuries after skin contact : Adverse effects not expected from this product.
- Symptoms/injuries after eye contact : Adverse effects not expected from this product.
- Symptoms/injuries after ingestion : Ingestion is not considered a potential route of exposure.
- Symptoms/injuries upon intravenous administration : Not known.
- Chronic symptoms : May damage fertility. May damage the unborn child. Causes damage to organs (CNS) through prolonged or repeated exposure (Inhalation).

### 4.3. Indication of any immediate medical attention and special treatment needed

If breathing is difficult, give oxygen. Obtain medical attention if breathing difficulty persists.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

- Suitable extinguishing media : Use extinguishing media appropriate for surrounding fire.
- Unsuitable extinguishing media : Do not use water jet to extinguish.

### 5.2. Special hazards arising from the substance or mixture

- Fire hazard : The product is not flammable.
- Explosion hazard : Product is not explosive. Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.
- Reactivity : None known.

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### 5.3. Advice for firefighters

- Firefighting instructions : In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire.
- Protection during firefighting : Standard protective clothing and equipment (e.g., Self Contained Breathing Apparatus) for fire fighters. Do not enter fire area without proper protective equipment, including respiratory protection.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

- General measures : Ensure adequate ventilation.

#### 6.1.1. For non-emergency personnel

- Protective equipment : Wear protective equipment consistent with the site emergency plan.
- Emergency procedures : Escape the danger area by the closest safe route. Close doors and windows of adjacent premises. Keep containers closed. Mark the danger area. Seal off low-lying areas. Keep upwind.

#### 6.1.2. For emergency responders

- Protective equipment : Standard protective clothing and equipment (e.g., Self Contained Breathing Apparatus) for fire fighters. Equip cleanup crew with proper protection.
- Emergency procedures : Evacuate and limit access. Ventilate area.

### 6.2. Environmental precautions

Try to stop release if safe to do so.

### 6.3. Methods and material for containment and cleaning up

- For containment : Try to stop release if safe to do so.
- Methods for cleaning up : Dispose of this material and its container in accordance with local regulations.

### 6.4. Reference to other sections

See also Sections 8 and 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

- Additional hazards when processed : Pressurized container: Do not pierce or burn, even after use. Use equipment rated for cylinder pressure.
- Precautions for safe handling : Do not handle until all safety precautions have been read and understood. Use only outdoors or in a well-ventilated area.
- Hygiene measures : Do not eat, drink or smoke when using this product.

### 7.2. Conditions for safe storage, including any incompatibilities

- Technical measures : Comply with applicable regulations.
- Storage conditions : Do not expose to temperatures exceeding 52°C (125°F). Keep container closed when not in use. Protect cylinder from physical damage.
- Incompatible products : None known.
- Incompatible materials : None known.

### 7.3. Specific end use(s)

Test gas/Calibration gas.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

| Carbon monoxide (630-08-0) |                        |          |
|----------------------------|------------------------|----------|
| USA ACGIH                  | ACGIH TWA (ppm)        | 25 ppm   |
| USA OSHA                   | OSHA PEL (TWA) (mg/m³) | 55 mg/m³ |
| USA OSHA                   | OSHA PEL (TWA) (ppm)   | 50 ppm   |

| Nitrogen (7727-37-9) |
|----------------------|
|----------------------|

| Acetylene (dissolved) (74-86-2) |
|---------------------------------|
|---------------------------------|

| Carbon dioxide (124-38-9) |
|---------------------------|
|---------------------------|

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

|           |                        |            |
|-----------|------------------------|------------|
| USA ACGIH | ACGIH TWA (ppm)        | 5000 ppm   |
| USA ACGIH | ACGIH STEL (ppm)       | 30000 ppm  |
| USA OSHA  | OSHA PEL (TWA) (mg/m³) | 9000 mg/m³ |
| USA OSHA  | OSHA PEL (TWA) (ppm)   | 5000 ppm   |

### Ethane (74-84-0)

|           |                 |          |
|-----------|-----------------|----------|
| USA ACGIH | ACGIH TWA (ppm) | 1000 ppm |
|-----------|-----------------|----------|

### Ethylene (74-85-1)

|           |                 |         |
|-----------|-----------------|---------|
| USA ACGIH | ACGIH TWA (ppm) | 200 ppm |
|-----------|-----------------|---------|

### Methane (74-82-8)

|           |                 |          |
|-----------|-----------------|----------|
| USA ACGIH | ACGIH TWA (ppm) | 1000 ppm |
|-----------|-----------------|----------|

## 8.2. Exposure controls

|                                  |                                                                                                                                                                                                                                                                                                                         |
|----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Appropriate engineering controls | : Provide adequate general and local exhaust ventilation. Systems under pressure should be regularly checked for leakages. Ensure exposure is below occupational exposure limits. Oxygen detectors should be used when asphyxiating gases may be released. Consider work permit system e.g. for maintenance activities. |
| Hand protection                  | : Wear working gloves when handling gas containers. 29CFR 1910.138: Hand Protection.                                                                                                                                                                                                                                    |
| Eye protection                   | : Wear safety glasses with side shields. 29 CFR 1910.133: Eye and Face Protection.                                                                                                                                                                                                                                      |
| Skin and body protection         | : Wear suitable protective clothing, e.g. - lab coats, coveralls or flame resistant clothing.                                                                                                                                                                                                                           |
| Respiratory protection           | : None necessary during normal and routine operations.                                                                                                                                                                                                                                                                  |
| Thermal hazard protection        | : None necessary during normal and routine operations.                                                                                                                                                                                                                                                                  |
| Environmental exposure controls  | : Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.                                                                                                                                                                               |
| Other information                | : Wear safety shoes while handling containers. 29 CFR 1910.136: Foot Protection.                                                                                                                                                                                                                                        |

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

|                                             |                                                                                                                                                      |
|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Physical state                              | : Gas                                                                                                                                                |
| Appearance                                  | : Clear, colorless gas.                                                                                                                              |
| Color                                       | : Colorless                                                                                                                                          |
| Odor                                        | : odorless                                                                                                                                           |
| Odor threshold                              | : No data available                                                                                                                                  |
| pH                                          | : No data available                                                                                                                                  |
| Relative evaporation rate (butyl acetate=1) | : No data available                                                                                                                                  |
| Relative evaporation rate (ether=1)         | : Not applicable for gas-mixtures.                                                                                                                   |
| Melting point                               | : No data available                                                                                                                                  |
| Freezing point                              | : No data available                                                                                                                                  |
| Boiling point                               | : No data available                                                                                                                                  |
| Flash point                                 | : No data available                                                                                                                                  |
| Auto-ignition temperature                   | : No data available                                                                                                                                  |
| Decomposition temperature                   | : No data available                                                                                                                                  |
| Flammability (solid, gas)                   | : No data available                                                                                                                                  |
| Vapor pressure                              | : No data available                                                                                                                                  |
| Relative vapor density at 20 °C             | : No data available                                                                                                                                  |
| Relative density                            | : No data available                                                                                                                                  |
| Relative gas density                        | : Lighter or similar to air.                                                                                                                         |
| Solubility                                  | : Water: Solubility in water of component(s) of the mixture :<br>•: Insoluble •: 20 mg/l •: 1185 mg/l •: 2000 mg/l •: 26 mg/l •: 61 mg/l •: 130 mg/l |
| Log Pow                                     | : No data available                                                                                                                                  |
| Log Kow                                     | : No data available                                                                                                                                  |
| Viscosity, kinematic                        | : No data available                                                                                                                                  |
| Viscosity, dynamic                          | : No data available                                                                                                                                  |
| Explosive properties                        | : No data available                                                                                                                                  |
| Oxidizing properties                        | : None.                                                                                                                                              |
| Explosive limits                            | : No data available                                                                                                                                  |

#### 9.2. Other information

|                        |         |
|------------------------|---------|
| Additional information | : None. |
|------------------------|---------|

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

None known.

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

None known.

#### 10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7).

#### 10.5. Incompatible materials

None known.

#### 10.6. Hazardous decomposition products

Under normal conditions of storage and use hazardous decomposition products should not be produced.

### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

|                |                  |
|----------------|------------------|
| Acute toxicity | : Not classified |
|----------------|------------------|

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| Carbon monoxide (630-08-0) |                       |
|----------------------------|-----------------------|
| LC50 inhalation rat (ppm)  | 1880 ppm/4h           |
| ATE US (gases)             | 1880.00000000 ppmV/4h |

| Nitrogen (7727-37-9)      |               |
|---------------------------|---------------|
| LC50 inhalation rat (ppm) | 410000 ppm/4h |

| Acetylene (dissolved) (74-86-2) |                         |
|---------------------------------|-------------------------|
| LC50 inhalation rat (ppm)       | 410000 ppm/4h           |
| ATE US (gases)                  | 410000.00000000 ppmV/4h |

| Ethane (74-84-0)           |                         |
|----------------------------|-------------------------|
| LC50 inhalation rat (mg/l) | 658 mg/l/4h             |
| LC50 inhalation rat (ppm)  | 410000 ppm/4h           |
| ATE US (gases)             | 410000.00000000 ppmV/4h |
| ATE US (vapors)            | 658.00000000 mg/l/4h    |
| ATE US (dust, mist)        | 658.00000000 mg/l/4h    |

| Ethylene (74-85-1)        |                         |
|---------------------------|-------------------------|
| LC50 inhalation rat (ppm) | 410000 ppm/4h           |
| ATE US (gases)            | 410000.00000000 ppmV/4h |

| Methane (74-82-8)         |                         |
|---------------------------|-------------------------|
| LC50 inhalation rat (ppm) | 410000 ppm/4h           |
| ATE US (gases)            | 410000.00000000 ppmV/4h |

|                                   |                  |
|-----------------------------------|------------------|
| Skin corrosion/irritation         | : Not classified |
| Serious eye damage/irritation     | : Not classified |
| Respiratory or skin sensitization | : Not classified |
| Germ cell mutagenicity            | : Not classified |
| Carcinogenicity                   | : Not classified |

| Ethylene (74-85-1) |                      |
|--------------------|----------------------|
| IARC group         | 3 - Not classifiable |

|                                                  |                                                          |
|--------------------------------------------------|----------------------------------------------------------|
| Reproductive toxicity                            | : May damage fertility or the unborn child (Inhalation). |
| Specific target organ toxicity (single exposure) | : Not classified                                         |

|                                                    |                                                                                                         |
|----------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| Specific target organ toxicity (repeated exposure) | : Causes damage to organs (central nervous system) through prolonged or repeated exposure (Inhalation). |
|----------------------------------------------------|---------------------------------------------------------------------------------------------------------|

|                                                   |                                                                                                                                         |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Aspiration hazard                                 | : Not classified                                                                                                                        |
| Symptoms/injuries after inhalation                | : Headache. Asphyxiating even with adequate oxygen. If you feel unwell, seek medical advice.                                            |
| Symptoms/injuries after skin contact              | : Adverse effects not expected from this product.                                                                                       |
| Symptoms/injuries after eye contact               | : Adverse effects not expected from this product.                                                                                       |
| Symptoms/injuries after ingestion                 | : Ingestion is not considered a potential route of exposure.                                                                            |
| Symptoms/injuries upon intravenous administration | : Not known.                                                                                                                            |
| Chronic symptoms                                  | : May damage fertility. May damage the unborn child. Causes damage to organs (CNS) through prolonged or repeated exposure (Inhalation). |

## SECTION 12: Ecological information

### 12.1. Toxicity

No additional information available

### 12.2. Persistence and degradability

| Carbon monoxide (630-08-0)    |                                                                                             |
|-------------------------------|---------------------------------------------------------------------------------------------|
| Persistence and degradability | Will not undergo hydrolysis. Not readily biodegradable. Not applicable for inorganic gases. |

| Nitrogen (7727-37-9)          |                                              |
|-------------------------------|----------------------------------------------|
| Persistence and degradability | No ecological damage caused by this product. |

| Acetylene (dissolved) (74-86-2) |  |
|---------------------------------|--|
|---------------------------------|--|

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

|                                  |                                                                                  |
|----------------------------------|----------------------------------------------------------------------------------|
| Persistence and degradability    | Will rapidly degrade by indirect photolysis in air. Will not undergo hydrolysis. |
| <b>Carbon dioxide (124-38-9)</b> |                                                                                  |
| Persistence and degradability    | No ecological damage caused by this product.                                     |
| <b>Ethane (74-84-0)</b>          |                                                                                  |
| Persistence and degradability    | The substance is biodegradable. Unlikely to persist.                             |
| <b>Ethylene (74-85-1)</b>        |                                                                                  |
| Persistence and degradability    | The substance is biodegradable. Unlikely to persist.                             |
| <b>Methane (74-82-8)</b>         |                                                                                  |
| Persistence and degradability    | The substance is biodegradable. Unlikely to persist. No data available.          |

### 12.3. Bioaccumulative potential

|                                        |                                                                                         |
|----------------------------------------|-----------------------------------------------------------------------------------------|
| <b>Carbon monoxide (630-08-0)</b>      |                                                                                         |
| Log Pow                                | 1.78                                                                                    |
| Bioaccumulative potential              | Not expected to bioaccumulate due to the low log Kow (log Kow < 4). Refer to section 9. |
| <b>Nitrogen (7727-37-9)</b>            |                                                                                         |
| Log Pow                                | Not applicable for inorganic gases.                                                     |
| Bioaccumulative potential              | No ecological damage caused by this product.                                            |
| <b>Acetylene (dissolved) (74-86-2)</b> |                                                                                         |
| Log Pow                                | 0.37                                                                                    |
| Bioaccumulative potential              | Not expected to bioaccumulate due to the low log Kow (log Kow < 4). Refer to section 9. |
| <b>Carbon dioxide (124-38-9)</b>       |                                                                                         |

| Log Kow                                | Not applicable for gas-mixtures.                                                        |
| Bioaccumulative potential              | Not expected to bioaccumulate due to the low log Kow (log Kow < 4). Refer to section 9. |

### 12.4. Mobility in soil

|                                        |                                                                                             |
|----------------------------------------|---------------------------------------------------------------------------------------------|
| <b>Carbon monoxide (630-08-0)</b>      |                                                                                             |
| Ecology - soil                         | Because of its high volatility, the product is unlikely to cause ground or water pollution. |
| <b>Nitrogen (7727-37-9)</b>            |                                                                                             |
| Ecology - soil                         | No ecological damage caused by this product.                                                |
| <b>Acetylene (dissolved) (74-86-2)</b> |                                                                                             |
| Ecology - soil                         | Because of its high volatility, the product is unlikely to cause ground or water pollution. |
| <b>Carbon dioxide (124-38-9)</b>       |                                                                                             |
| Ecology - soil                         | No ecological damage caused by this product.                                                |
| <b>Ethane (74-84-0)</b>                |                                                                                             |
| Ecology - soil                         | Because of its high volatility, the product is unlikely to cause ground or water pollution. |
| <b>Ethylene (74-85-1)</b>              |                                                                                             |
| Ecology - soil                         | Because of its high volatility, the product is unlikely to cause ground or water pollution. |
| <b>Methane (74-82-8)</b>               |                                                                                             |

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

|                  |                                                                                             |
|------------------|---------------------------------------------------------------------------------------------|
| Mobility in soil | No data available.                                                                          |
| Ecology - soil   | Because of its high volatility, the product is unlikely to cause ground or water pollution. |

### 12.5. Other adverse effects

|                              |                                                           |
|------------------------------|-----------------------------------------------------------|
| Effect on ozone layer        | : No additional information available                     |
| Effect on the global warming | : Contains greenhouse gas(es) not covered by 842/2006/EC. |

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

|                                |                                                                                                                                                                                                                      |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste treatment methods        | : Contact supplier if guidance is required. Do not discharge into any place where its accumulation could be dangerous. Ensure that the emission levels from local regulations or operating permits are not exceeded. |
| Waste disposal recommendations | : Refer to the CGA Pamphlet P-63 "Disposal of Gases" available at <a href="http://www.cganet.com">www.cganet.com</a> for more guidance on suitable disposal methods.                                                 |
| Additional information         | : None.                                                                                                                                                                                                              |

## SECTION 14: Transport information

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### ADR

Transport document description : UN 1956, 2.2, (E)  
Class (ADR) : 2 - Gases  
Hazard identification number (Kemler No.) : 20  
Classification code (ADR) : 1A  
Danger labels (ADR) : 2.2 - Non-flammable compressed gas

Orange plates :

Tunnel restriction code (ADR) : E  
LQ : 120ml  
Excepted quantities (ADR) : E1

### Transport by sea

UN-No. (IMDG) : 1956  
Proper Shipping Name (IMDG) : COMPRESSED GAS, N.O.S.  
Class (IMDG) : 2.2 - Non-flammable, non-toxic gases

### Air transport

UN-No.(IATA) : 1956  
Proper Shipping Name (IATA) : COMPRESSED GAS, N.O.S.  
Class (IATA) : 2

## SECTION 15: Regulatory information

### 15.1. US Federal regulations

| Ethylene (74-85-1)                                                        |       |
|---------------------------------------------------------------------------|-------|
| Listed on the United States TSCA (Toxic Substances Control Act) inventory |       |
| Listed on United States SARA Section 313                                  |       |
| SARA Section 313 - Emission Reporting                                     | 1.0 % |

# 6 Components in Nitrogen

## Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

### Carbon dioxide (124-38-9)

|                      |                          |
|----------------------|--------------------------|
| WHMIS Classification | Class A - Compressed Gas |
|----------------------|--------------------------|

### Ethane (74-84-0)

Listed on the Canadian DSL (Domestic Substances List)

|                      |                                                                |
|----------------------|----------------------------------------------------------------|
| WHMIS Classification | Class A - Compressed Gas<br>Class B Division 1 - Flammable Gas |
|----------------------|----------------------------------------------------------------|

### Ethylene (74-85-1)

Listed on the Canadian DSL (Domestic Substances List)

|                      |                                                                                                                                                 |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| WHMIS Classification | Class A - Compressed Gas<br>Class B Division 1 - Flammable Gas<br>Class D Division 2 Subdivision B - Toxic material causing other toxic effects |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|

### Methane (74-82-8)

Listed on the Canadian DSL (Domestic Substances List)

|                      |                                                                |
|----------------------|----------------------------------------------------------------|
| WHMIS Classification | Class A - Compressed Gas<br>Class B Division 1 - Flammable Gas |
|----------------------|----------------------------------------------------------------|

## EU-Regulations

### Ethylene (74-85-1)

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

## Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified

## Classification according to Directive 67/548/EEC or 1999/45/EC

### 15.2.2. National regulations

### Ethylene (74-85-1)

Listed on the AICS (the Australian Inventory of Chemical Substances)  
Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)  
Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory  
Listed on the Korean ECL (Existing Chemicals List)  
Listed on NZIoC (New Zealand Inventory of Chemicals)  
Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)

### 15.3. US State regulations

### Carbon monoxide (630-08-0)

|                                                       |                                                             |                                                                     |                                                                   |                                   |

## SECTION 16: Other information

Indication of changes : Revised safety data sheet in accordance with OSHA final rule on GHS implementation promulgated March 26, 2012.

Training advice : Receptacle under pressure.

Other information : This Safety Data Sheet is offered pursuant to OSHA's Hazard Communication Standard, 29 CFR, 1910.1200. Other government regulations must be reviewed for applicability to this product.

Full text of H-phrases: see section 16:

|                               |                                                                |
|-------------------------------|----------------------------------------------------------------|
| Acute Tox. 3 (Inhalation:gas) | Acute toxicity (inhalation:gas) Category 3                     |
| Compressed gas                | Gases under pressure Compressed gas                            |
| Dissolved gas                 | Gases under pressure Dissolved gas                             |
| Flam. Gas 1                   | Flammable gases Category 1                                     |
| Liquefied gas                 | Gases under pressure Liquefied gas                             |
| Repr. 1A                      | Reproductive toxicity Category 1A                              |
| Simple Asphy                  | Simple Asphyxiant                                              |
| STOT RE 1                     | Specific target organ toxicity (repeated exposure) Category 1  |
| STOT SE 3                     | Specific target organ toxicity (single exposure) Category 3    |
| H220                          | Extremely flammable gas                                        |
| H280                          | Contains gas under pressure; may explode if heated             |
| H331                          | Toxic if inhaled                                               |
| H336                          | May cause drowsiness or dizziness                              |
| H360                          | May damage fertility or the unborn child                       |
| H372                          | Causes damage to organs through prolonged or repeated exposure |
| H380                          | May displace oxygen and cause rapid suffocation                |
