Safety Data Sheet

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier
Product Name  | Trichlorosilane
Synonyms      | Silicochloroform; Trichloromonosilane
CAS Number    | 10025-78-2
Product Code  | 20164
EC Number     | 233-042-5
Molecular Formula | :H 1:Si 1:Cl 3:

1.2 Relevant identified uses of the substance or mixture and uses advised against
Relevant identified use(s) | Intermediate in the purification of silicon.

1.3 Details of the supplier of the safety data sheet
Manufacturer | Air Liquide
              | 2700 Post Oak Blvd.
              | Houston, TX 77056
              | United States
              | www.us.airliquide.com
              | sds@airliquide.com
Telephone (Technical) | 713-896-2896
Telephone (Technical) | 800-819-1704

1.4 Emergency telephone number
Manufacturer | 800-424-9300 - CHEMTREC
Manufacturer | +1 703-527-3887 - Outside United States

Section 2: Hazards Identification

EU/EEC
According to EU Directive 67/548/EEC (DSD) or 1999/45/EC (DPD)

2.1 Classification of the substance or mixture
CLP
- Flammable Liquids 1 - H224
- Pyrophoric Liquids 1 - H250
- Compressed Gas - H280
- Acute Toxicity Oral 4 - H302
- Skin Corrosion 1A - H314
- Acute Toxicity Inhalation 3 - H331

DSD/DPD
- Extremely Flammable (F+)
- Highly Flammable (F)
- Harmful (Xn)
- Corrosive (C)
2.2 Label Elements

CLP

DANGER

Hazard statements

H224 - Extremely flammable liquid and vapour
H250 - Catches fire spontaneously if exposed to air
H280 - Contains gas under pressure; may explode if heated
H302 - Harmful if swallowed
H314 - Causes severe skin burns and eye damage
H331 - Toxic if inhaled

Precautionary statements

Prevention

P210 - Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking.
P222 - Do not allow contact with air.
P233 - Keep container tightly closed.
P240 - Ground and/or bond container and receiving equipment.
P241 - Use explosion-proof electrical/ventilating/lighting/equipment.
P242 - Use only non-sparking tools.
P243 - Take precautionary measures against static discharge.
P260 - Do not breathe fume/gas/mist/vapours/spray.
P264 - Wash thoroughly after handling.
P270 - Do not eat, drink or smoke when using this product.
P271 - Use only outdoors or in a well-ventilated area.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.
P370+P378 - In case of fire: Use appropriate media for extinction.
P304+P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P311 - Call a POISON CENTER or doctor/physician.
P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P321 - Specific treatment, see supplemental first aid information.
P363 - Wash contaminated clothing before reuse.
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 - Immediately call a POISON CENTER or doctor/physician.
P301+P312 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician if you feel unwell.
P330 - Rinse mouth.
P331 - Do NOT induce vomiting.

Response

P233 - Keep container tightly closed.
P403+P233 - Store in a well-ventilated place. Keep container tightly closed.
P405 - Store locked up.
P422 - Store contents under appropriate liquid or inert gas - .
P501 - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Storage/Disposal

DSD/DPD

Risk phrases

R12 - Extremely flammable.
R14 - Reacts violently with water.
R17 - Spontaneously flammable in air.
R20/22 - Harmful by inhalation and if swallowed.
R29 - Contact with water liberates toxic gas.
R35 - Causes severe burns.

Safety phrases

S8 - Keep container dry
S9 - Keep container in a well ventilated place
S16 - Keep away from sources of ignition - No Smoking.
S36 - Wear suitable protective clothing.
S37 - Wear suitable gloves.
S39 - Wear eye/face protection.
S45 - In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

2.3 Other Hazards

CLP
According to Regulation (EC) No. 1272/2008 (CLP) this material is considered hazardous.

DSD/DPD
According to European Directive 1999/45/EC this preparation is considered dangerous.

United States (US)
According to OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the substance or mixture
OSHA HCS 2012
Flammable Liquids 1 - H224
Pyrophoric Liquids 1 - H250
In contact with water emits flammable gases 1 - H260
Compressed Gas - H280
Acute Toxicity Oral 4 - H302
Skin Corrosion 1A - H314
Serious Eye Damage 1 - H318
Acute Toxicity Inhalation 3 - H331

2.2 Label elements
OSHA HCS 2012

DANGER

Hazard statements
Extremely flammable liquid and vapour - H224
Catches fire spontaneously if exposed to air - H250
In contact with water releases flammable gases which may ignite spontaneously - H260
Contains gas under pressure; may explode if heated - H280
Harmful if swallowed - H302
Causes severe skin burns and eye damage - H314
Causes serious eye damage - H318
Toxic if inhaled - H331

Precautionary statements

Prevention
Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking. - P210
Do not allow contact with air. - P222
Handle under inert gas. Protect from moisture. - P231+P232
Keep container tightly closed. - P233
Ground and/or bond container and receiving equipment. - P240
Use explosion-proof electrical/ventilating/lighting/equipment. - P241
Use only non-sparking tools. - P242
Take precautionary measures against static discharge. - P243
Do not breathe fume/gas/mist/vapours/spray. - P260
Wash thoroughly after handling. - P264
Do not eat, drink or smoke when using this product. - P270
Use only outdoors or in a well-ventilated area. - P271
Wear protective gloves/protective clothing/eye protection/face protection. - P280
Do not allow contact with water.

Response
In case of fire: Use appropriate media for extinction. - P370+P378
Brush off loose particles from skin. Immerse in cool water/wrap in wet bandages. -
P335+P334
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. - P304+P340
Call a POISON CENTER or doctor/physician. - P311
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. - P303+P361+P353
Specific treatment, see supplemental first aid information. - P321
Wash contaminated clothing before reuse. - P363
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. - P305+P351+P338
Immediately call a POISON CENTER or doctor/physician. - P310
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician if you feel unwell. - P301+P312
Rinse mouth. - P330
Do NOT induce vomiting. - P331

Storage/Disposal
Keep container tightly closed. - P233
Store in a dry place. Store in a closed container. - P402+P404
Store in a well-ventilated place. Keep container tightly closed. - P403+P233
Store locked up. - P405
Store contents under appropriate liquid or inert gas. - P422
Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. - P501

2.3 Other hazards
OSHA HCS 2012

Canada
According to WHMIS

2.1 Classification of the substance or mixture
WHMIS
Compressed Gas - A
Flammable Liquids - B2
Reactive Flammable Materials - B6
Very Toxic - D1A
Corrosive - E

2.2 Label elements
WHMIS
Compressed Gas - A
Flammable Liquids - B2
Reactive Flammable Materials - B6
Very Toxic - D1A
Corrosive - E

2.3 Other hazards
WHMIS
In Canada, the product mentioned above is considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

2.4 Other information
NFPA
Section 3 - Composition/Information on Ingredients

3.1 Substances

Material does not meet the criteria of a substance in accordance with Regulation (EC) No 1272/2008.

3.2 Mixtures

Section 4 - First Aid Measures

4.1 Description of first aid measures

**Inhalation**

Administer oxygen if breathing is difficult. Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Give artificial respiration if victim is not breathing. Move victim to fresh air.

**Skin**

For minor skin contact, avoid spreading material on unaffected skin. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing.

**Eye**

In case of contact with substance, immediately flush eyes with running water for at least 20 minutes.

**Ingestion**

If swallowed, rinse mouth with water (only if the person is conscious) Do NOT induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance. Obtain medical attention immediately if ingested.

4.2 Most important symptoms and effects, both acute and delayed

Refer to Section 11 - Toxicological Information.

4.3 Indication of any immediate medical attention and special treatment needed

**Notes to Physician**

All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5 - Firefighting Measures

5.1 Extinguishing media

Preparation Date: 19/December/2014
Revision Date: 19/December/2014

Format: EU CLP/REACH Language: English (US) WHMIS, EU CLP, EU DSD/DPD, OSHA HCS 2012
Suitable Extinguishing Media
- Use extinguishing agent suitable for type of surrounding fire.
  SMALL FIRES: Dry chemical or CO2.

Unsuitable Extinguishing Media
- Water

5.2 Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards
- May be ignited by heat, sparks or flames.
- May ignite on contact with moist air or moisture.
- Containers may explode when heated or if contaminated with water.
- Produce flammable and toxic gases on contact with water.
- Some react vigorously or explosively on contact with water.
- May burn rapidly with flare-burning effect.
- Vapors may travel to source of ignition and flash back.
- May re-ignite after fire is extinguished.
- Cylinders exposed to fire may vent and release flammable gas through pressure relief devices.
- Ruptured cylinders may rocket.
- Runoff may create fire or explosion hazard.

Hazardous Combustion Products
- The products of thermal decomposition of this material include amorphous silicon dioxide and hydrogen chloride.

5.3 Advice for firefighters
- Structural firefighters’ protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.
- Always wear thermal protective clothing when handling refrigerated/cryogenic liquids.
- Wear positive pressure self-contained breathing apparatus (SCBA).
- DO NOT EXTINGUISH A LEAKING GAS FIRE UNLESS LEAK CAN BE STOPPED.
- Move containers from fire area if you can do it without risk.
- FIRE: If tank, rail car or tank truck is involved in a fire, ISOLATE for 1600 meters (1 mile) in all directions; also, consider initial evacuation for 1600 meters (1 mile) in all directions.
- FIRE INVOLVING TANKS: ALWAYS stay away from tanks engulfed in fire.
- FIRE INVOLVING TANKS: Fight fire from maximum distance or use unmanned hose holders or monitor nozzles.
- FIRE INVOLVING TANKS: Withdraw immediately in case of rising sound from venting safety devices or discoloration of tank.
- FIRE INVOLVING TANKS: Cool containers with flooding quantities of water until well after fire is out.
- FIRE INVOLVING TANKS: Do not direct water at source of leak or safety devices; icing may occur.
- FIRE INVOLVING TANKS: For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions
- Ventilate the area before entry. Do not walk through spilled material. Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Emergency Procedures
- ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. Keep unauthorized personnel away. Stay upwind. Keep out of low areas.

6.2 Environmental precautions
- Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and material for containment and cleaning up

Containment/Clean-up Measures
- Stop leak if you can do it without risk.
- SMALL SPILLS: Cover with DRY earth, DRY sand or other non-combustible material
followed with plastic sheet to minimize spreading or contact with rain. SMALL SPILLS: Dike for later disposal; do not apply water unless directed to do so.

6.4 Reference to other sections

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7 - Handling and Storage

7.1 Precautions for safe handling

Handling

Use only with adequate ventilation. Wear appropriate personal protective equipment, avoid direct contact. Do not breathe fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Avoid contact with heat and ignition sources and oxidizers. Use only non-sparking tools. Take precautionary measures against static charges. Use explosion-proof - electrical, ventilating and/or lighting equipment. Cylinders should be firmly secured to prevent falling or being knocked-over. Do not attempt to repair, adjust, or in any other way modify cylinders. If there is a malfunction or another type of operational problem, contact nearest distributor immediately. Empty containers retain product residue and can be hazardous. Do not cut, weld, puncture or incinerate container.

7.2 Conditions for safe storage, including any incompatibilities

Storage

Handle and store under inert environment, preferably argon. Keep away from incompatible materials. Keep away from sources of ignition – No Smoking. Do not allow area where cylinders are stored to exceed 52°C (125°F). Containers of this material should be separated from oxygen, or other oxidizers, by a minimum distance of 20 ft., or by a barrier of non-combustible material at least 5 ft. high, having a fire-resistance rating of at least 0.5 hours. Isolate from other incompatible chemicals (refer to Section 10, Stability and Reactivity).

7.3 Specific end use(s)

Refer to Section 1.2 - Relevant identified uses.

Section 8 - Exposure Controls/Personal Protection

8.1 Control parameters

<table>
<thead>
<tr>
<th>Exposure Limits/Guidelines</th>
<th>China</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trichlorosilane (10025-78-2) Ceilings</td>
<td>3 mg/m3 Ceiling [MAC]</td>

8.2 Exposure controls

Engineering Measures/Controls

This product should be used in a fume hood or glove box or closed chemical dispensing system designed by competent individual. Use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits provided in this section, if applicable. Use a non-sparking, grounded, explosion-proof ventilation system separate from other exhaust ventilation systems. Exhaust system in manner consistent with prevention of release to atmosphere. Use explosion-proof electrical/ventilating/lighting/equipment.

Personal Protective Equipment

Respiratory

In case of insufficient ventilation, wear suitable respiratory equipment. Follow the OSHA respirator regulations found in 29 CFR 1910.134. Use a NIOSH/MSHA approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face

Wear face shield and eye protection.

Skin/Body

Wear leather gloves when handling cylinders. Wear chemically resistant gloves and clothing when using this product.

General Industrial Hygiene Considerations

Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap and water after handling and before eating, drinking, or using...
Environmental Exposure Controls

Follow best practice for site management and disposal of waste. Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways.

9.2 Other Information

No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

May ignite spontaneously in air. Reacts violently with water.

10.2 Chemical stability

Under normal atmospheric conditions of temperature, pressure, and humidity, spontaneous ignition of the vapors of Trichlorosilane will not normally occur (because of the rapid rate of hydrogen chloride formation)

10.3 Possibility of hazardous reactions

Vapors may form explosive mixtures with air. Reacts violently with water. Catches fire spontaneously if exposed to air.

10.4 Conditions to avoid

Excess heat, sparks, open flame. Moisture.
10.5 Incompatible materials
Trichlorosilane reacts violently with water. Trichlorosilane is incompatible with strong oxidizers, amines, and alcohols.

10.6 Hazardous decomposition products
Thermal decomposition products include carbon dioxide, carbon monoxide, phosgene, and hydrogen chloride.

Section 11 - Toxicological Information

**Potential Health Effects**

**Inhalation**

- **Acute (Immediate)**: Toxic if inhaled. May cause corrosive burns - irreversible damage.
- **Chronic (Delayed)**: Repeated or prolonged exposure to corrosive fumes may cause bronchial irritation with chronic cough.

**Skin**

- **Acute (Immediate)**: Causes severe skin burns and eye damage.
- **Chronic (Delayed)**: Repeated or prolonged exposure to corrosive materials will cause dermatitis.
Eye
Acute (Immediate) | Causes serious eye damage.
Chronic (Delayed) | Repeated or prolonged exposure to corrosive materials or fumes may cause conjunctivitis.

Ingestion
Acute (Immediate) | Harmful if swallowed. May cause irreversible damage to mucous membranes.
Chronic (Delayed) | Repeated or prolonged exposure to corrosive materials or fumes may cause gastrointestinal disturbances.

14.6 Special precautions for
Cylinders should be transported in a secure position, in a well-ventilated vehicle. The
transportation of compressed gas cylinders in automobiles or in closed-body vehicles can present serious safety hazards. If transporting these cylinders in vehicles, ensure these cylinders are not exposed to extremely high temperatures (as may occur in an enclosed vehicle on a hot day). Additionally, the vehicle should be well-ventilated during transportation.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

14.8 Other information

DOT | Forbidden for Passenger aircraft/rail transport and Cargo aircraft.

- Trichlorosilane 10025-78-2

**China - Export Control List - Part I Chemicals**
- Trichlorosilane 10025-78-2 Not Listed

### Europe

**EU - CLP (1272/2008) - Annex VI - Table 3.2 - Classification**
- Trichlorosilane 10025-78-2 F+; R12 R14 F; R17 Xn; R20/22 R29 C; R35

**EU - CLP (1272/2008) - Annex VI - Table 3.2 - Concentration Limits**
- Trichlorosilane 10025-78-2 10%<C; Xn; R:20/22 10%<C; C: R:35 5%<C<10%; C; R:34 1%<C<5%; Xi; R:36/37/38

**EU - CLP (1272/2008) - Annex VI - Table 3.2 - Labelling**

**EU - CLP (1272/2008) - Annex VI - Table 3.2 - Notes - Substances and Preparations**
- Trichlorosilane 10025-78-2 Not Listed

**EU - CLP (1272/2008) - Annex VI - Table 3.2 - Safety Phrases**

### Germany

**Environment**

**Germany - TA Luft - Types and Classes**
- Trichlorosilane 10025-78-2 Not Listed

**Germany - Water Classification (VwVwS) - Annex 1**
- Trichlorosilane 10025-78-2 Not Listed

**Germany - Water Classification (VwVwS) - Annex 2 - Water Hazard Classes**
- Trichlorosilane 10025-78-2 ID Number 557, hazard class 1 - low hazard to waters (footnote 13)

**Germany - Water Classification (VwVwS) - Annex 3**
- Trichlorosilane 10025-78-2 Not Listed

**Other**

**Germany - Specifically Regulated Chemicals in TRGS**
- Trichlorosilane 10025-78-2 Not Listed
### United Kingdom

**Environment**

**United Kingdom - Pollution Inventory - Schedule 1 - Thresholds for Releases to Air**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**Other**

**United Kingdom - Workplace Exposure Limits (WELs) - Substances in Review**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**United Kingdom - List of Dangerous Substances in Water**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

### United States

**Labor**

**U.S. - OSHA - Process Safety Management - Highly Hazardous Chemicals**
- Trichlorosilane
  - EC Number: 10025-78-2
  - 5000 lb TQ

**U.S. - OSHA - Specifically Regulated Chemicals**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**Environment**

**U.S. - CAA (Clean Air Act) - 1990 Hazardous Air Pollutants**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**U.S. - CERCLA/SARA - Hazardous Substances and their Reportable Quantities**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**U.S. - CERCLA/SARA - Radionuclides and Their Reportable Quantities**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**U.S. - CERCLA/SARA - Section 302 Extremely Hazardous Substances EPCRA RQs**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**U.S. - CERCLA/SARA - Section 302 Extremely Hazardous Substances TPQs**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**U.S. - CERCLA/SARA - Section 313 - Emission Reporting**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**U.S. - CERCLA/SARA - Section 313 - PBT Chemical Listing**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

### United States - California

**Environment**

**U.S. - California - Proposition 65 - Carcinogens List**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**U.S. - California - Proposition 65 - Developmental Toxicity**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed

**U.S. - California - Proposition 65 - Maximum Allowable Dose Levels (MADL)**
- Trichlorosilane
  - EC Number: 10025-78-2
  - Not Listed
No Significant Risk Levels (NSRL)

- Trichlorosilane
  - 10025-78-2
  - Not Listed

Reproductive Toxicity - Female

- Trichlorosilane
  - 10025-78-2
  - Not Listed

Reproductive Toxicity - Male

- Trichlorosilane
  - 10025-78-2
  - Not Listed

United States - Pennsylvania

Labor

- U.S. - Pennsylvania - RTK (Right to Know) - Environmental Hazard List
  - Trichlorosilane
    - 10025-78-2
    - Not Listed

- U.S. - Pennsylvania - RTK (Right to Know) - Special Hazardous Substances
  - Trichlorosilane
    - 10025-78-2
    - Not Listed

15.2 Chemical Safety Assessment

- No Chemical Safety Assessment has been carried out.

Section 16 - Other Information

- Last Revision Date: 19/December/2014
- Preparation Date: 19/December/2014
- Disclaimer/Statement of Liability:
  - To the best of Air Liquide's knowledge, the information contained herein is reliable and accurate as of this date; however, accuracy, suitability or completeness are not guaranteed and no warranties of any type, either express or implied, are provided. The information contained herein relates only to this specific product. If this gas mixture is combined with other materials, all component properties must be considered. Data may be changed from time to time. Be sure to consult the latest edition.
