Material Safety Data Sheet in Accordance with 2001/58/EC & ANSI 400.1.2003

	of issue: October 2009 = not applicable, n.k = not known	Supersedes version of: June 2004	Page 1 of 2 P/N 48072E		
1.	Product Details: Trade Name: Extra Tough Base Pla	eparation and of the company / undertakings			
	Manufacturer: Coltène/Whaledent Inc. 235 Ascot Parkway Cuyahoga Falls, OH 44223 / USA Fax +1 330 916 7077 info@coltenewhaledent.com	Authorized EU Representative Coltène/Whaledent GmbH+ Co. KG Raiffeisenstrasse 30 89129 Langenau / Germany Tel. +49 (0) 7345 805 0 Fax +49 (0) 7345 805 201			
	Emergency Contact Numbers: USA & Canada: 1 800 535 5053 Main Phone Number: +1 330 916 8				
2.	Composition / information on ingre Chemical characterization: Dental Hazardous components:				
	None				
	Non-hazardous components (>10%) Petroleum Hydrocarbons & Additive	s >50% n.a.			
3.	Hazard identification Hazard Designation: Non-Hazardous at room temperature. Above its melting point, wax becomes a liquid and flows more readily as its temperature increases. If material is used as a hot liquid, it requires special handling. At temperatures significantly above its melting point, hydrocarbon vapors are given off which should be handled with adequate ventilation. Can cause eye, skin and respiratory irritation when heated significantly above its melting point. Information pertaining to particular dangers for man and environment: None Classification is in line with BC directive 1999/45/EC: Yes				
1.	<b>First-aid measures</b> General Information: After inhalation:	Not a hazardous material at room temperature. If exposed to melter Remove individual to a well-ventilated area for fresh air, and call a p			
	After skin contact: After eye contact:	persist. Exposure to fumes vapor and smoke from thermal degradation can cause irritation. Exposure to molten material can cause burns. Run exposed area under water for 15 minutes, then contact a physician. Do not attempt to remove material bonded to skin. Exposure to fumes vapor and smoke from thermal degradation can cause irritation. Direct			
	After swallowing:	contact with molten material will cause eye injury. Flush eyes with copious amounts of water for 15 minutes, administer first aid, and call a physician. Material is not generally toxic by ingestion.			
5.	Fire-fighting measures Flammability: Non-Flammable Extinguishing media: Unsuitable extinguishing media: Protective Equipment:	Flash Point: n.a. LEL: n.a. UEL: n.a Carbon dioxide, Foam and dry chemicals Do not use direct water stream. n.a.			
6.	Accidental release measures Personal precautions: Environmental precautions: Method for clean up:	No smoking. Observe local by-laws Handle as a thermoplastic. Allow molten material to cool and solidif	y before handling.		
7.	Handling and storage Handling: Storage:	Use appropriate PPE when handling molten wax. Store in a dry place, away from heat and flames.			
8.	Exposure controls/ personal protection   Components with recommended limits for the work place   CAS No. Description   None				
		m temperature. If used in a molten state, wear appropriate PPE ( there uard. If used molten, ensure adequate ventilation.	nal gloves, safety glasses
