

ENZYMES Glycerol-3-Phosphate Dehydrogenase Ex. Rabbit muscle

Section 1: Product and Company Identification

Material name Glycerol-3-Phosphate Dehydrogenase Ex. Rabbit muscle

Synonyms Glycerol phosphate dehydrogenase

Product No. GLPD-70-1301

Product description Lyophilized powder containing enzyme (protein), carbohydrate and buffering salts.

Product use Enzyme reagent for laboratory use.

Emergency Telephone Numbers Distributor

Section 2: Hazards Identification

OSHA regulatory status This preparation is classified as hazardous under U.S. OSHA 29 CFR 1910.1200; E.C.

Directive 1999/45/EC; Canadian R.S. 1985, c. H-3; U.K. CHIP 2002 No. 1689; and/or U.N. GHS ST/SG/AC 10/30. Refer to Sec. 15, Regulatory Information, for details

regarding hazard classification.

None of the components present in this preparation at concentrations equal to or greater

Corporate Headquarters

Sekisui Diagnostics LLC

Framingham, MA 01701

31 New York Avenue

Phone: 508-661-1835

USA

than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen.

Precautionary statements CAUTION! The chemical, physical and toxicological properties of this preparation have

not been thoroughly characterized. Avoid contact with eyes and skin. Do not ingest or

inhale. Preparation appearance: white to off-white powder.

Potential health effects:

Routes of exposure Occupational exposure routes may include eye contact, skin contact and inhalation.

EyesNo data available. Eye exposure may cause irritation, redness and itching. **Skin**No data available. Skin contact may cause irritation, dryness and redness.

InhalationNo data available. Although there is no evidence that the enzyme(s) in this preparation

induces specific respiratory hypersensitivity, all proteins are potential respiratory allergens and may result in respiratory sensitization in certain individuals after repeated and/or prolonged inhalation exposure, producing mild to severe symptoms similar to pollen allergy or asthma, including mucous membrane or eye irritation, itching of the skin or eyes, sneezing, nasal or sinus congestion, coughing, and tightness in the chest. These

symptoms may develop as late as 12 hours after exposure.

Ingestion No data available.

Chronic effectsNo data available. Repeated inhalation may result in respiratory sensitization.

Target organs Unknown.

Potential environmental effects No data available.

Section 3: Composition / Information on Ingredients

Ingredient Name	CAS#	EC#	% (wt/wt)
Lactose	63-42-3	200-559-2	55 - 65
EC R-Phrases: None	EC Hazard Class: None		
Glycerol phosphate dehydrogenase	9075-65-4	232-982-3	20 - 30
EC R-Phrases: None	EC Hazard Class: None		
NAD+ (Nicotinamide-adenine dinucleotide)	53-84-9	200-184-4	5 - 15
EC R-Phrases: None	EC Hazard Class: None		
Potassium phosphate, monobasic	7778-77-0	231-913-4	1 - 10
EC R-Phrases: None	EC Hazard Class: None		

NOTE - Glycerol phosphate dehydrogenase - Enzyme source: Rabbit muscle, Enzyme Commission number: 1.1.1.8

Section 4: First Aid Measures

First aid procedures:

Eye contact Immediately flush eyes with plenty of tepid water for 15 minutes while separating eyelids

with fingers. Remove contact lenses if worn. Obtain medical attention if needed or if

symptoms, such as redness or irritation persist.

Skin contact In case of contact, flush skin with cool water and remove contaminated clothing. Obtain

medical attention if needed or if irritation or other symptoms develop.

Inhalation If inhaled, move from exposure area to fresh air. Seek medical attention if breathing

becomes difficult or if cough or other symptoms develop.

Ingestion In case of ingestion, contact a poison control center or physician for instructions.

Effective Date: 30 November 2012 756-0

Section 5: Fire Fighting Measures

Flammable properties Material may burn when exposed to sufficient heat.

foam, dry chemical or water spray.

Unsuitable extinguishing media

Specific hazards arising from

the chemical

Standard protective equipment and precautions for firefighters

Toxic gases may be generated by combustion, including. carbon monoxide (CO), carbon

dioxide (CO₂), phosphorus oxides (POx) and potassium oxides (KOx).

Firefighters should wear NIOSH-approved or equivalent Self-Contained Breathing

Apparatus and full protective gear.

Section 6: Accidental Release Measures

Personal precautions Avoid physical contact with material and avoid generating or inhaling dust. Ensure

adequate ventilation. Wear Personal Protective Equipment (PPE) as indicated in Section

8. Wash hands thoroughly after handling.

Environmental precautions

Methods and materials for containment and clean-up

No information available.

Do not dry sweep powder. Use HEPA-filtered vacuum, if available, otherwise wet mop to clean up a powder spill. Decontaminate the spill site following standard procedures. Dispose of materials in accordance with all applicable federal, state, local and provincial

environmental regulations, per Section 13.

Section 7: Handling and Storage

Handling Follow good laboratory hygiene practices. See Section 8, Engineering Controls. Minimize

contact and contamination of personal clothing and skin. Wash hands thoroughly after

handling.

Unknown.

Storage Store desiccated at -20°C (-4°F). Do not store with incompatible substances; see Section

10.

Section 8: Exposure Controls / Personal Protection

Exposure guidelinesThere are no ACGIH, NIOSH, OSHA or country-specific occupational exposure limits

currently established for components present in this preparation at concentrations equal

to or greater than 1% (0.1% if carcinogen).

Engineering controlsUse in well ventilated areas. If handling large quantities or there is a potential for dust or

aerosol generation, use local exhaust ventilation. Facilities storing or using this material

should be equipped with an eyewash fountain and a safety shower.

Personal protective equipment:

Eye / face protection Wear appropriate protective chemical safety glasses.

Skin protection Wear lab coat or other protective garments. Remove contaminated clothing promptly.

Hand protection Wear chemical resistant protective gloves.

Respiratory protection A respirator is not required under normal conditions of use.

General Follow company-specific safety procedures.

Section 16: Other Information

Further Information:

This MSDS has been prepared in accordance with the ANSI Z400.1 format. Every effort has been made to adhere to the hazard criteria and content requirements of the U.S. OSHA Hazard Communication Standard, Canadian Controlled Products Regulation (CPR), UK Chemical Hazard Information and Packaging Regulations, European Communities REACH Regulation, and UN Globally Harmonized System of Classification and Labelling of Chemicals.
