MATERIAL SAFETY DATA SHEET

Phospholipase DP

Section 1: Product and Company Identification

Material name	**Phospholipase DP**
Synonyms	Phospholipase
Product No.	70-1731-00; 70-1731-01
Product description	Lyophilized powder containing enzyme (protein) and salts.
Product use	Enzyme reagent for laboratory use.

Emergency Telephone Numbers
Americas: +1-760-476-3962
Europe, Middle East & Africa: +1-760-476-3961
Asia Pacific: +1-760-476-3960
Access code: 333512

Distributor

Section 2: Hazards Identification

OSHA regulatory status
This preparation is classified as hazardous under U.S. OSHA 29 CFR 1910.1200; E.C. Directive 1999/45/EC; Canadian R.S. 1985, c. H-3; U.K. CHIP 2002 No. 1689; and/or U.N. GHS ST/SG/AC 10/30. Refer to Sec. 15, Regulatory Information, for details regarding hazard classification.
None of the components present in this preparation at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen.

Precautionary statements
CAUTION! The chemical, physical and toxicological properties of this preparation have not been thoroughly characterized. Irritating to eyes. Avoid contact with eyes and skin. Do not ingest or inhale. Preparation appearance: white to light brown powder.

Potential health effects:

Routes of exposure
Occupational exposure routes may include eye contact, skin contact and inhalation.

Eyes
Potassium chloride is irritating to the eyes. Eye exposure may cause irritation, redness, watering and pain.

Skin
No data available. Skin contact may cause irritation, dryness and redness.

Inhalation
No data available. Although there is no evidence that the enzyme(s) in this preparation induces specific respiratory hypersensitivity, all proteins are potential respiratory allergens and may result in respiratory sensitization in certain individuals after repeated and/or prolonged inhalation exposure, producing mild to severe symptoms similar to pollen allergy or asthma, including mucous membrane or eye irritation, itching of the skin or eyes, sneezing, nasal or sinus congestion, coughing, and tightness in the chest. These symptoms may develop as late as 12 hours after exposure.

Ingestion
No data available.

Chronic effects
No data available. Repeated inhalation may result in respiratory sensitization.

Target organs
Potassium chloride: eyes.

Potential environmental effects
No data available.

Section 3: Composition / Information on Ingredients

Ingredient Name	CAS #	EC #	% (wt/wt)
Phospholipase D	9001-87-0	232-639-8	< 80
EC R-Phrases: None	**EC Hazard Class:** None		
Potassium chloride	7447-40-7	231-211-8	>/= 20
EC R-Phrases: R36	**EC Hazard Class:** Xi		

NOTE - Phospholipase D - Enzyme source: Streptomyces chromofuscus, Enzyme Commission number: 3.1.4.4

Section 4: First Aid Measures

First aid procedures:

Eye contact
Immediately flush eyes with plenty of tepid water for 15 minutes while separating eyelids with fingers. Remove contact lenses if worn. Obtain medical attention if needed or if symptoms, such as redness or irritation persist.

Skin contact
In case of contact, flush skin with cool water and remove contaminated clothing. Obtain medical attention if needed or if irritation or other symptoms develop.

Inhalation
If inhaled, move from exposure area to fresh air. Seek medical attention if breathing becomes difficult or if cough or other symptoms develop.

Ingestion
In case of ingestion, contact a poison control center or physician for instructions.

Section 5: Fire Fighting Measures

Flammable properties	Material may burn when exposed to sufficient heat.
Suitable extinguishing media	Use extinguishing media suitable for surrounding fire, such as carbon dioxide, chemical foam, dry chemical or water spray.
Unsuitable extinguishing media	Unknown.
Specific hazards arising from the chemical	Toxic gases may be generated by combustion, including. carbon monoxide (CO), carbon dioxide (CO_2), nitrogen oxides (NOx) and potassium oxides (KOx).
Standard protective equipment and precautions for firefighters	Firefighters should wear NIOSH-approved or equivalent Self-Contained Breathing Apparatus and full protective gear.

Section 6: Accidental Release Measures

Personal precautions	Avoid physical contact with material and avoid generating or inhaling dust. Ensure adequate ventilation. Wear Personal Protective Equipment (PPE) as indicated in Section 8. Wash hands thoroughly after handling.
Environmental precautions	No information available.
Methods and materials for containment and clean-up	Do not dry sweep powder. Use HEPA-filtered vacuum, if available, otherwise wet mop to clean up a powder spill. Decontaminate the spill site following standard procedures. Dispose of materials in accordance with all applicable federal, state, local and provincial environmental regulations, per Section 13.

Section 7: Handling and Storage

Handling	Follow good laboratory hygiene practices. See Section 8, Engineering Controls. Minimize contact and contamination of personal clothing and skin. Wash hands thoroughly after handling.
Storage	Store desiccated at -20°C (-4°F). Do not store with incompatible substances; see Section 10.

Section 8: Exposure Controls / Personal Protection

Exposure guidelines	There are no ACGIH, NIOSH, OSHA or country-specific occupational exposure limits currently established for components present in this preparation at concentrations equal to or greater than 1% (0.1% if carcinogen).
Engineering controls	Use in well ventilated areas. If handling large quantities or there is a potential for dust or aerosol generation, use local exhaust ventilation. Facilities storing or using this material should be equipped with an eyewash fountain and a safety shower.

Personal protective equipment:

Eye / face protection	Wear appropriate protective chemical safety glasses.
Skin protection	Wear lab coat or other protective garments. Remove contaminated clothing promptly.
Hand protection	Wear chemical resistant protective gloves.
Respiratory protection	A respirator is not required under normal conditions of use.
General	Follow company-specific safety procedures.

Section 9: Physical and Chemical Properties

Appearance	White to light brown powder
Odor	Not available
pH	Not applicable
Melting point/Freezing point	Not available / Not applicable
Boiling point	Not applicable
Evaporation rate	Not applicable
Flash point	Not applicable
Flammability/explosivity limits in air, upper	Not applicable
Flammability/explosivity limits in air, lower	Not applicable
Vapor pressure	Not available
Density	Not available
Solubility	Water-soluble
Partition coefficient (n-octanol/water)	Not available
Auto-ignition temperature	Not available

Section 10: Chemical Stability and Reactivity Information

Possibility of hazardous reactions	Hazardous polymerization will not occur.
Chemical stability	Stable under ordinary conditions of use and storage. See Section 7.
Conditions to avoid	Unknown.
Incompatible materials	Unknown.
Hazardous decomposition products	Thermal decomposition may lead to release of irritating gases and vapors.

Section 11: Toxicological Information

Acute effects:

Toxicological data - Selected LD50s and LC50s

Potassium chloride	7447-40-7	Oral LD50 Rat: 2600 mg/kg

Local effects	No data available.
Chronic effects	No data available.
Sensitization	No data available.
Carcinogenicity	No data available.
Mutagenicity	No data available.
Reproductive effects	No data available.
Teratogenicity	No data available.

Section 12: Ecological Information

Ecotoxicity:

Ecotoxicity - Freshwater Algae Data

Potassium chloride	7447-40-7	72 Hr EC50 Scenedesmus subspicatus: 2500 mg/L

Ecotoxicity - Freshwater Fish Species Data

Potassium chloride	7447-40-7	96 Hr LC50 Lepomis macrochirus: 2010 mg/L [static]

Ecotoxicity - Water Flea Data

Potassium chloride	7447-40-7	48 Hr EC50 Daphnia magna: 825 mg/L

Persistence and degradability	No data available.
Bioaccumulation potential	No data available.
Mobility in environmental media	No data available.

Section 13: Disposal Considerations

Methods of disposal	Dispose of unused product, spilled material and waste in accordance with all applicable federal, state, local and provincial environmental and hazardous waste regulations.

Section 14: Transport Information

Basic shipping description	Not classified as dangerous goods. Not regulated per IATA and DOT regulations.

Section 15: Regulatory Information

US Federal Regulations:

Inventory - United States - Section 8(b) Inventory (TSCA):

Potassium chloride	7447-40-7	Present

International Regulations:

Canada - WHMIS - Classifications of Substances		
Potassium chloride	7447-40-7	Uncontrolled product according to WHMIS classification criteria (including 23.8%)
Germany - Water Classification (VwVwS) - Annex 2 - Water Hazard Classes		
Potassium chloride	7447-40-7	ID Number 230, hazard class 1 - low hazard to waters
Inventory - Australia - Inventory of Chemical Substances (AICS)		
Potassium chloride	7447-40-7	Present
Inventory - Canada - Domestic Substances List (DSL)		
Potassium chloride	7447-40-7	Present
Inventory - China		
Potassium chloride	7447-40-7	Present
Inventory - European Union - European Inventory of Existing Commercial Chemical Substances (EINECS)		
Phospholipase D	9001-87-0	232-639-8
Potassium chloride	7447-40-7	231-211-8
Inventory - Japan Existing and New Chemical Substances (ENCS)		
Potassium chloride	7447-40-7	1-228
Inventory - Korea - Existing and Evaluated Chemical Substances		
Potassium chloride	7447-40-7	KE-29086

Canadian Hazardous Products

WHMIS Status Non-controlled

European Communities Dangerous Substances/Preparations

EC Hazard Class Xi - Irritant

Symbols

Risk Phrases

R36 Irritating to eyes.

Safety Phrases

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Section 16: Other Information

Further Information:
This MSDS has been prepared in accordance with the ANSI Z400.1 format. Every effort has been made to adhere to the hazard criteria and content requirements of the U.S. OSHA Hazard Communication Standard, Canadian Controlled Products Regulation (CPR), UK Chemical Hazard Information and Packaging Regulations, European Communities REACH Regulation, and UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS).

MSDS Origination Date: 01 March, 2006
Version #: 4
Revision Date: 27 November, 2012
