2. Hazard(s) Identification

Classification of the substance or mixture

Very toxic

Very toxic by inhalation

Toxic

May Cause harm to unborn child. Toxic: danger of serious damage to health by

Prolonged exposure through inhalation

Safety Data Sheet

According to OSHA (HCS)

Trade name: **Quala Dispersed Phase High Copper**

Printing date 03/27/2015

Version number 1

Reviewed on 03/27/2015

Classification system

The classification was made according to the latest editions of international Substances list, and expanded upon company literature and data.

Label elements

Code letter and hazard designation of product

Very Toxic
Dangerous for the environment

Hazard-determining components of labeling:

Mercury

Risk Phrases

May cause harm to unborn child.
Very toxic by inhalation
Toxic: danger of serious damage to health by prolonged exposure through inhalation.
Very toxic to aquatic organisms may cause long-term adverse effects in the aquatic environment.

Safety Phrases

Avoid exposure - obtain special instructions before use.
Keep container in a well-ventilated place.
After contact with skin, wash immediately with plenty of soap and water.
Wear suitable protective clothing, gloves and eye/face protection.
In case of accident or if you feel unwell, seek medical advice immediately (Show the label where possible).
Use appropriate container to avoid environmental contamination.

Classification system

NFPA ratings (scale 0 - 4)

3. Composition / information on ingredients

Chemical characterization: Mixtures

Description:

Alloy powder and mercury in pre-dosed capsules.

Dangerous components:

7439-97-6 mercury 50%

4. First-aid measures

Description of first aid measures

General information:

Immediately remove any clothing soiled by the product.

After inhalation:

Supply fresh air or oxygen; call for doctor.

In case of unconsciousness place patient stably in side position for transportation

After skin contact:

Immediately wash with water and soap and rinse thoroughly.

Safety Data Sheet

According to OSHA (HCS)

Trade name: Quala Dispersed Phase High Copper

Printing date 03/27/2015

Version number 1

Reviewed on 03/27/2015

After eye contact:

Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed:

No further relevant information available.

Indication of any immediate medical attention and special treatment needed

Antidote: DMPS

5. Fire-fighting measures

Extinguishing media

Suitable extinguishing agents:

The product is not flammable.

Use fire fighting measures that suit the environment.

Special hazards arising from the substance or mixture

In case of a fire very toxic mercury fumes will generate.

Fumes are heavier than air.

Advice for firefighters

Protective equipment:

Wear self-contained respiratory protective device.

Additional information:

Cool endangered receptacles with water spray.

Safety Data Sheet

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Environmental precautions

Do not allow product to reach sewage system or any water course.

Inform respective authorities in case of seepage into water course or sewage system.

Methods and material for containment and cleaning up

Spillages of mercury should be removed immediately, including from places which are difficult to access.

Use a plastic syringe to draw it up. Smaller quantities can be covered by sulphur Powder and removed.

Avoid inhalation of vapors

Ensure adequate ventilation.

Dispose contaminated material as waste according to item 13.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7. Handling and storage

Precautions for safe handling

Only adequately trained personnel should handle this product.

Ensure good ventilation/exhaustion at the workplace.

For use in dentistry only

Information about protection against explosions and fires

Keep respiratory protective device available.

Safety Data Sheet

Conditions for safe storage, including any incompatibilities

Storage

Requirements to be met by storerooms and receptacles

Store only in unopened original receptacles

Information about storage in one common storage facility

Not required.

Further information about storage conditions

Keep receptacle tightly sealed.

Store receptacle in a well ventilated area.

Specific end use(s):

No further relevant information available.

8. Exposure controls / personal protection

Additional information about design of technical systems

No further data; see item 7.

Control parameters

Components with limit values that require monitoring at the workplace

7439-97-6 mercury

PEL Long-term value: 0.1 mg/m³

as Hg; see OSHA standard interpretation memo

REL Long-term value: 0.05* mg/m³

Medium: blood

Time: end of shift at end of workweek

Parameter: Total inorganic mercury (background)

Additional information:

The lists that were valid during the creation were used as basis.

Exposure controls

Personal protective equipment

General protective and hygienic measures

Usual hygienic measures for dental practice

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

Store protective clothing separately

Breathing equipment

In case of brief exposure or low pollution use respiratory filter device. In case of

Intensive or longer exposure use respiratory device that is independent of

Circulating air

Recommended filter device for short term use

Special gas filter Hg-P3

Protection of hands

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation after use of gloves apply skin-cleaning agents and skin cosmetics.

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacture.

Natural rubber, NR

Nitrile rubber, NBR

Butyl rubber, BR

Fluorocarbon rubber (Viton)

Tightly sealed goggles

9. Physical and chemical properties

Information on basic physical and chemical properties

General Information

The physical and chemical properties in this section refer to the mercury.

Appearance

Form: Fluid

Color: Silver grey

Odor: Odorless

Odor threshold: Not determined.

pH-value: Not determined.

Change in condition

Melting point/Melting range: -38 °C (-36 °F)

Boiling point/Boiling range: 356 °C (673 °F)

Flash point: Not applicable.

Auto igniting: Product is not self-igniting.

Danger of explosion: Product does not present an explosion hazard.

Explosion limits:

Lower: Not determined.

Upper: Not determined.

Vapor pressure: Not determined.

Density at 20 °C (68 °F): 13.54 g/cm³ (112.991 lbs/gal)

Relative density: Not determined.

Vapour density: Not determined.

Evaporation rate: Not determined.

Solubility in / Miscibility with

Water: Insoluble.

Partition coefficient (n-octanol/water): Not determined.

Viscosity:

Dynamic: Not determined.

Kinematic: Not determined.

10. Stability and reactivity

Reactivity

No further relevant information available.

Chemical stability

Stable under normal handling and storage conditions

Thermal decomposition / conditions to be avoided

No decomposition if used according to specifications.

Possibility of hazardous reactions

No dangerous reactions known.

Conditions to avoid

No further relevant information available.

Incompatible materials

No further relevant information available.

Hazardous decomposition products

None under normal conditions of storage and use

Additional information

Avoid contact with ammoniac, amines, metals and strong acids.

11. Toxicological information

Information on toxicological effects

Acute toxicity

Primary irritant effect

On the skin

No irritant effect.

Safety Data Sheet

According to OSHA (HCS)

Trade name: Quala Dispersed Phase High Copper

Printing date 03/27/2015

Version number 1

Reviewed on 03/27/2015

On the eye

No irritating effect.

Sensitization

Mercury may have a sensitizing effect on the skin and lungs, or act as a nephrotoxin or neurotoxin.

Additional toxicological information

The product shows the following dangers according to internally approved calculation methods for preparation.

Harmful

Very toxic

Alloy powder and mercury are predosed in closed capsules, therefore the danger of exposition to mercury vapors are low.

Avoid exposure of mercury to pregnant person.

Carcinogenic categories

IARC (International Agency for Research on Cancer)

7439-97-6 mercury 3

NTP (National Toxicology Program)

None of the ingredients is listed.

12. Ecological information

Toxicity

Aquatic toxicity

No further relevant information available.

Persistence and degradability

No further relevant information available.

Bioaccumulative potential

No further relevant information available.

Mobility in soil

No further relevant information available.

Ecotoxicological effects

Remark

Very toxic for fish

Additional ecological information

General notes

Water hazard class 3 (Self-assessment): extremely hazardous for water

Do not allow product to reach ground water, water course or sewage system,

Even in small quantities.

Danger to drinking water if even extremely small quantities leak into the ground

Also poisonous for fish and plankton in water bodies

Very toxic for aquatic organisms

Results of PBT and vPvB assessment

PBT:

Not applicable.

vPvB:

Not applicable.

Other adverse effects No further relevant information available.

13. Disposal considerations

Waste treatment methods

Recommendation

Must be specially treated adhering to official regulations.

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Uncleaned packagings

Recommendation: Disposal must be made according to official regulations.
