Unsuitable: Water spray

Specific hazards arising from the chemical

No information available

Hazardous Combustion Products: Not applicable

Protective equipment and precautions for firefighters

Self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent), full protective gear, chemical goggles, body-covering protective clothing, chemical resistant gloves and rubber boots.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions Wear protective clothing as described in Section 8.

For emergency responders Keep unnecessary people away. Isolate hazard area and deny entry.

Methods and material for containment and clean-up

Method for containment Prevent further leakage or spillage if safe to do so.

Method for clean-up Carefully sweep, scoop or vacuum and place in suitable container. Avoid generating dust. If possible, complete clean-up on a dry basis. Flush residual spill with water.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling Handle in accordance with good industrial hygiene and safety practice. Use personal protective protection recommended in Section 8. Do not breathe dust. Do not eat, drink or smoke when using this product. Wash face, hands and any exposed skin thoroughly after handling. Use only with adequate ventilation. Empty container retains product residue. Observe all labeled safeguards until container is cleaned, reconditioned or destroyed.

Conditions for safe storage, including any incompatibilities

Storage Conditions Keep containers tightly closed in a dry, cool and well-ventilated place. Not following storage conditions could affect the product's performance. Store locked up.

Packaging materials Keep in original container.

Incompatible materials Acids, aluminum, fluorine, molten lithium

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure guidelines

Appropriate engineering controls Provide natural or mechanical ventilation to control exposure levels below airborne exposure limits. Local mechanical exhaust ventilation is preferred at sources of air contamination such as open process equipment.

Individual protection measures, such as personal protective equipment

Eye / face protection	Use chemical safety goggles and/or full-face shielding where dusting is possible..
Skin and body protection	Body-covering protective clothing and gloves are recommended. Wash hands and contaminated skin thoroughly after handling.
Respiratory protection	Avoid breathing dust. Use NIOSH / MSHA approved respiratory protection equipment when airborne exposure limits are exceeded.
General hygiene considerations	Handle in accordance with good industrial hygiene and safety practice.
