

# SAFETY DATA SHEET

## BAROTHERM® GOLD

**Product Trade Name:****Revision Date:** 02-Apr-2015**Revision Number:** 9**1. Identification****1.1. Product Identifier**

**Product Trade Name:** BAROTHERM® GOLD  
**Synonyms:** None  
**Chemical Family:** Mineral  
**Internal ID Code** HM006713

**1.2 Recommended use and restrictions on use**

**Application:** Grouting Material  
**Uses Advised Against** No information available

**1.3 Manufacturer's Name and Contact Details**

**Manufacturer/Supplier** Baroid Fluid Services  
Product Service Line of Halliburton  
P.O. Box 1675  
Houston, TX 77251  
Telephone: (281) 871-4000  
Emergency Telephone: (281) 575-5000

**Prepared By** Chemical Stewardship  
Telephone: 1-580-251-4335  
e-mail: fdunexchem@halliburton.com

**1.4. Emergency telephone number**

**Emergency Telephone Number** (281) 575-5000

**2. Hazard(s) Identification****2.1 Classification in accordance with paragraph (d) of §1910.1200**

|                                                      |                    |
|------------------------------------------------------|--------------------|
| Carcinogenicity                                      | Category 1A - H350 |
| Specific Target Organ Toxicity - (Repeated Exposure) | Category 1 - H372  |

**2.2. Label Elements****Hazard Pictograms**

**Signal Word** Danger

**Hazard Statements** H350 - May cause cancer  
H372 - Causes damage to organs through prolonged or repeated exposure

**Precautionary Statements**

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Prevention</b> | P201 - Obtain special instructions before use<br>P202 - Do not handle until all safety precautions have been read and understood<br>P260 - Do not breathe dust/fume/gas/mist/vapors/spray<br>P264 - Wash face, hands and any exposed skin thoroughly after handling<br>P270 - Do not eat, drink or smoke when using this product<br>P280 - Wear protective gloves/protective clothing/eye protection/face protection |
| <b>Response</b>   | P308 + P313 - IF exposed or concerned: Get medical advice/attention                                                                                                                                                                                                                                                                                                                                                  |
| <b>Storage</b>    | P405 - Store locked up                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Disposal</b>   | P501 - Dispose of contents/container in accordance with local/regional/national/international regulations                                                                                                                                                                                                                                                                                                            |

**Contains****Substances**

Crystalline silica, quartz  
 Sodium carbonate  
 Crystalline silica, cristobalite  
 Crystalline silica, tridymite

**CAS Number**

14808-60-7  
 497-19-8  
 14464-46-1  
 15468-32-3

**2.3 Hazards not otherwise classified**

None known

**3. Composition/information on Ingredients**

| Substances                       | CAS Number | PERCENT (w/w) | GHS Classification - US             |
|----------------------------------|------------|---------------|-------------------------------------|
| Crystalline silica, quartz       | 14808-60-7 | 1 - 5%        | Carc. 1A (H350)<br>STOT RE 1 (H372) |
| Sodium carbonate                 | 497-19-8   | 1 - 5%        | Eye Irrit. 2 (H319)                 |
| Crystalline silica, cristobalite | 14464-46-1 | 0.1 - 1%      | Carc. 1A (H350)<br>STOT RE 1 (H372) |
| Crystalline silica, tridymite    | 15468-32-3 | 0.1 - 1%      | Carc. 1A (H350)<br>STOT RE 1 (H372) |

The exact percentage (concentration) of the composition has been withheld as proprietary.

**4. First-Aid Measures****4.1. Description of first aid measures**

|                   |                                                                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b> | If inhaled, remove from area to fresh air. Get medical attention if respiratory irritation develops or if breathing becomes difficult.    |
| <b>Eyes</b>       | In case of contact, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention if irritation persists. |
| <b>Skin</b>       | Wash with soap and water. Get medical attention if irritation persists.                                                                   |
| <b>Ingestion</b>  | Under normal conditions, first aid procedures are not required.                                                                           |

**4.2 Most important symptoms/effects, acute and delayed**

Breathing crystalline silica can cause lung disease, including silicosis and lung cancer. Crystalline silica has also been associated with scleroderma and kidney disease.

**4.3. Indication of any immediate medical attention and special treatment needed****Notes to Physician**

Treat symptomatically.

**5. Fire-fighting measures****5.1. Extinguishing media****Suitable Extinguishing Media**

All standard fire fighting media

**Extinguishing media which must not be used for safety reasons**

None known.

**5.2 Specific hazards arising from the substance or mixture****Special Exposure Hazards**

None anticipated

**5.3 Special protective equipment and precautions for fire-fighters****Special Protective Equipment for Fire-Fighters**

Full protective clothing and approved self-contained breathing apparatus required for fire fighting personnel.

**6. Accidental release measures****6.1. Personal precautions, protective equipment and emergency procedures**

Use appropriate protective equipment. Avoid creating and breathing dust.

See Section 8 for additional information

**6.2. Environmental precautions**

Prevent from entering sewers, waterways, or low areas.

**6.3. Methods and material for containment and cleaning up**

Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.

**7. Handling and storage****7.1. Precautions for Safe Handling****Handling Precautions**

This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet.

**Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities****Storage Information**

Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Do not reuse empty container. Product has a shelf life of 12 months.

**8. Exposure Controls/Personal Protection****8.1 Occupational Exposure Limits**

| Substances                 | CAS Number | OSHA PEL-TWA                                  | ACGIH TLV-TWA                |
|----------------------------|------------|-----------------------------------------------|------------------------------|
| Crystalline silica, quartz | 14808-60-7 | 10 mg/m <sup>3</sup><br>%SiO <sub>2</sub> + 2 | TWA: 0.025 mg/m <sup>3</sup> |
| Sodium carbonate           | 497-19-8   | Not applicable                                | Not applicable               |

|                                  |            |                                                         |                              |
|----------------------------------|------------|---------------------------------------------------------|------------------------------|
| Crystalline silica, cristobalite | 14464-46-1 | $1/2 \times 10 \text{ mg/m}^3$<br>$\% \text{SiO}_2 + 2$ | TWA: 0.025 mg/m <sup>3</sup> |
| Crystalline silica, tridymite    | 15468-32-3 | $1/2 \times 10 \text{ mg/m}^3$<br>$\% \text{SiO}_2 + 2$ | 0.05 mg/m <sup>3</sup>       |

## 8.2 Appropriate engineering controls

### Engineering Controls

Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits.

## 8.3 Individual protection measures, such as personal protective equipment

### Personal Protective Equipment

If engineering controls and work practices cannot prevent excessive exposures, the selection and proper use of personal protective equipment should be determined by an industrial hygienist or other qualified professional based on the specific application of this product.

### Respiratory Protection

Not normally needed. But if significant exposures are possible then the following respirator is recommended:

Dust/mist respirator. (N95, P2/P3)

### Hand Protection

Normal work gloves.

### Skin Protection

Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing.

### Eye Protection

Wear safety glasses or goggles to protect against exposure.

### Other Precautions

None known.

## 9. Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

Physical State: Powder

Color:

Tan

Odor: Mild earthy

Odor

No information available

Threshold:

Property

Values

Remarks/ - Method

pH:

8-10

Freezing Point/Range

No information available.

Melting Point/Range

No data available

Boiling Point/Range

No data available

Flash Point

No data available

Flammability (solid, gas)

No data available

upper flammability limit

No data available

lower flammability limit

No data available

Evaporation rate

No data available

Vapor Pressure

No data available

Vapor Density

No data available

Specific Gravity

2.6

Water Solubility

Insoluble in water

Solubility in other solvents

No data available

Partition coefficient: n-octanol/water

No data available

Autoignition Temperature

No data available

Decomposition Temperature

No data available

Viscosity

No data available

Explosive Properties

No information available

Oxidizing Properties

No information available

**9.2. Other information****VOC Content (%)**

No data available

**10. Stability and Reactivity****10.1. Reactivity**

Not expected to be reactive.

**10.2. Chemical Stability**

Stable

**10.3. Possibility of Hazardous Reactions**

Will Not Occur

**10.4. Conditions to Avoid**

None anticipated

**10.5. Incompatible Materials**

Hydrofluoric acid.

**10.6. Hazardous Decomposition Products**

Amorphous silica may transform at elevated temperatures to tridymite (870 C) or cristobalite (1470 C).

**11. Toxicological Information****11.1 Information on likely routes of exposure****Principle Route of Exposure** Eye or skin contact, inhalation.**11.2 Symptoms related to the physical, chemical and toxicological characteristics****Acute Toxicity****Inhalation**

Inhaled crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC, Group 1). There is sufficient evidence in experimental animals for the carcinogenicity of tridymite (IARC, Group 2A).

Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See "Chronic Effects/Carcinogenicity" subsection below).

**Eye Contact**  
**Skin Contact**  
**Ingestion**

May cause mechanical irritation to eye.  
May cause mechanical skin irritation.  
None known

**Chronic Effects/Carcinogenicity** Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.

Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2).

There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by scarring of the lungs, skin, and other internal organs) and kidney disease.

### 11.3 Toxicity data

#### Toxicology data for the components

| Substances                       | CAS Number | LD50 Oral                                | LD50 Dermal                                 | LC50 Inhalation   |

|----------------------------------|------------|-----------------------------------------------|
| Crystalline silica, quartz       | 14808-60-7 | Not regarded as mutagenic.                    |
| Sodium carbonate                 | 497-19-8   | In vivo tests did not show mutagenic effects. |
| Crystalline silica, cristobalite | 14464-46-1 | Not regarded as mutagenic.                    |
| Crystalline silica, tridymite    | 15468-32-3 | Not regarded as mutagenic.                    |

| Substances                       | CAS Number | Carcinogenic Effects                                                                                                                                                                                                                                                                                                                                                                                                     |
|----------------------------------|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Crystalline silica, quartz       | 14808-60-7 | Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. Based on available scientific evidence, this substance is a threshold carcinogen with a mode of action involving indirect genotoxicity secondary to lung injury. |
| Sodium carbonate                 | 497-19-8   | Not regarded as carcinogenic.                                                                                                                                                                                                                                                                                                                                                                                            |
| Crystalline silica, cristobalite | 14464-46-1 | Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. Based on available scientific evidence, this substance is a threshold carcinogen with a mode of action involving indirect genotoxicity secondary to lung injury. |
| Crystalline silica, tridymite    | 15468-32-3 | Contains crystalline silica which may cause silicosis, a delayed and progressive lung disease. The IARC and NTP have determined there is sufficient evidence in humans of the carcinogenicity of crystalline silica with repeated respiratory exposure. Based on available scientific evidence, this substance is a threshold carcinogen with a mode of action involving indirect genotoxicity secondary to lung injury. |

| Substances                       | CAS Number | Reproductive toxicity                                   |
|----------------------------------|------------|---------------------------------------------------------|
| Crystalline silica, quartz       | 14808-60-7 | No information available                                |
| Sodium carbonate                 | 497-19-8   | Did not show teratogenic effects in animal experiments. |
| Crystalline silica, cristobalite | 14464-46-1 | No information available                                |
| Crystalline silica, tridymite    | 15468-32-3 | No information available                                |

| Substances                       | CAS Number | STOT - single exposure                                                                        |
|----------------------------------|------------|-----------------------------------------------------------------------------------------------|
| Crystalline silica, quartz       | 14808-60-7 | No significant toxicity observed in animal studies at concentration requiring classification. |
| Sodium carbonate                 | 497-19-8   | None under normal use conditions                                                              |
| Crystalline silica, cristobalite | 14464-46-1 | No significant toxicity observed in animal studies at concentration requiring classification. |
| Crystalline silica, tridymite    | 15468-32-3 | No significant toxicity observed in animal studies at concentration requiring classification. |

| Substances                       | CAS Number | STOT - repeated exposure                                                           |
|----------------------------------|------------|------------------------------------------------------------------------------------|
| Crystalline silica, quartz       | 14808-60-7 | Causes damage to organs through prolonged or repeated exposure if inhaled: (Lungs) |
| Sodium carbonate                 | 497-19-8   | No information available                                                           |
| Crystalline silica, cristobalite | 14464-46-1 | Causes damage to organs through prolonged or repeated exposure if inhaled: (Lungs) |

| Crystalline silica, cristobalite | 14464-46-1 | Not applicable    |
| Crystalline silica, tridymite    | 15468-32-3 | Not applicable    |

## 12. Ecological Information

### 12.1. Toxicity

#### Ecotoxicity Effects

#### Product Ecotoxicity Data

No data available

**Substance Ecotoxicity Data**

| Substances                       | CAS Number | Toxicity to Algae         | Toxicity to Fish                                                                                                              | Toxicity to Microorganisms | Toxicity to Invertebrates                                                     |
|----------------------------------|------------|---------------------------|-------------------------------------------------------------------------------------------------------------------------------|----------------------------|-------------------------------------------------------------------------------|
| Crystalline silica, quartz       | 14808-60-7 | No information available  | LL50 (96h) 10,000 mg/L (Danio rerio) (similar substance)                                                                      | No information available   | LL50 (24h) > 10,000 mg/L (Daphnia magna) (similar substance)                  |
| Sodium carbonate                 | 497-19-8   | EC50 242 mg/L (Nitzschia) | TLM24 385 mg/L (Lepomis macrochirus)<br>LC50 310-1220 mg/L (Pimephales promelas)<br>LC50 (96h) 300 mg/L (Lepomis macrochirus) | No information available   | EC50 265 mg/L (Daphnia magna)<br>EC50 (48h) 200 – 227 mg/L (Ceriodaphnia sp.) |
| Crystalline silica, cristobalite | 14464-46-1 | No information available  | LL0 (96h) 10,000 mg/L (Danio rerio) (similar substance)                                                                       | No information available   | LL50 (24h) > 10,000 mg/L (Daphnia magna) (similar substance)                  |
| Crystalline silica, tridymite    | 15468-32-3 | No information available  | LL0 (96h) 10,000 mg/L (Danio rerio) (similar substance)                                                                       | No information available   | LL50 (24h) > 10,000 mg/L (Daphnia magna) (similar substance)                  |

**12.2. Persistence and degradability**

The methods for determining biodegradability are not applicable to inorganic substances.

| Substances                       | CAS Number | Persistence and Degradability                                                            |
|----------------------------------|------------|------------------------------------------------------------------------------------------|
| Crystalline silica, quartz       | 14808-60-7 | The methods for determining biodegradability are not applicable to inorganic substances. |
| Sodium carbonate                 | 497-19-8   | The methods for determining biodegradability are not applicable to inorganic substances. |
| Crystalline silica, cristobalite | 14464-46-1 | The methods for determining biodegradability are not applicable to inorganic substances. |
| Crystalline silica, tridymite    | 15468-32-3 | The methods for determining biodegradability are not applicable to inorganic substances. |

**12.3. Bioaccumulative potential**

Does not bioaccumulate

| Substances                       | CAS Number | Log Pow                  |
|----------------------------------|------------|--------------------------|
| Crystalline silica, quartz       | 14808-60-7 | No information available |
| Sodium carbonate                 | 497-19-8   | No information available |
| Crystalline silica, cristobalite | 14464-46-1 | No information available |
| Crystalline silica, tridymite    | 15468-32-3 | No information available |

**12.4. Mobility in soil**

No information available

| Substances       | Mobility                 |
|------------------|--------------------------|
| Sodium carbonate | No information available |

**12.5 Other adverse effects**

No information available

**13. Disposal Considerations****13.1. Waste treatment methods****Disposal Method**

If practical, recover and reclaim, recycle, or reuse by the guidelines of an approved local reuse program. Should contaminated product become a waste, dispose of in a licensed industrial landfill according to federal, state, and local regulations.

**Contaminated Packaging**

Follow all applicable national or local regulations.

**14. Transport Information****US DOT**

### Key or legend to abbreviations and acronyms

bw – body weight  
CAS – Chemical Abstracts Service  
EC50 – Effective Concentration 50%  
ErC50 – Effective Concentration growth rate 50%  
LC50 – Lethal Concentration 50%  
LD50 – Lethal Dose 50%  
LL50 – Lethal Loading 50%  
mg/kg – milligram/kilogram  
mg/L – milligram/liter  
NIOSH – National Institute for Occupational Safety and Health  
NTP – National Toxicology Program  
OEL – Occupational Exposure Limit  
PEL – Permissible Exposure Limit  
ppm – parts per million  
STEL – Short Term Exposure Limit  
TWA – Time-Weighted Average  
UN – United Nations  
h - hour  
mg/m<sup>3</sup> - milligram/cubic meter  
mm - millimeter  
mmHg - millimeter mercury  
w/w - weight/weight  
d - day
