#### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

First-aid measures general : Never give anything by mouth to an unconscious person. If exposed or concerned:

Get medical advice/attention.

First-aid measures after inhalation : When symptoms occur: go into open air and ventilate suspected area. Remove to

fresh air and keep at rest in a position comfortable for breathing. Call a POISON

CENTER/doctor/physician if you feel unwell.

First-aid measures after skin contact : Rinse immediately with plenty of water. Obtain medical attention if irritation

develops or persists.

First-aid measures after eye contact : Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if

present and easy to do so. Continue rinsing. Obtain medical attention if irritation

persists.

First-aid measures after ingestion : Rinse mouth. Do not induce vomiting. Get medical advice and attention if you feel

unwell.

#### 4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries : Causes serious eye irritation.

Symptoms/injuries after inhalation : May cause respiratory irritation. May displace oxygen and cause rapid suffocation.

May cause drowsiness or dizziness.

Symptoms/injuries after skin contact : May cause skin irritation. Prolonged contact with propellant escaping the container

can cause frostbite and freeze burns.

Symptoms/injuries after eye contact : Causes serious eye irritation. Symptoms may include: Redness, pain, swelling,

itching, burning, tearing, and blurred vision.

Symptoms/injuries after ingestion : Ingestion is likely to be harmful or have adverse effects.

Chronic symptoms : None expected under normal conditions of use.

#### 4.3. Indication of any immediate medical attention and special treatment needed

If medical advice is needed, have product container or label at hand.

# **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Suitable extinguishing media : Carbon dioxide, dry chemical, foam, water spray, fog. Unsuitable extinguishing media : Use of heavy stream of water may spread fire.

#### 5.2. Special hazards arising from the substance or mixture

Fire hazard : Extremely flammable aerosol.

21/01/2016 EN (English) 3/12

Safety Data Sheet

Explosion hazard

: Container may explode in heat of fire.: Hazardous reactions will not occur under normal conditions.

Reactivity **5.3.** Advice for firefighters

Precautionary measures fire : Exercise caution when fighting any chemical fire. Under fire conditions, hazardous

fumes will be present.

Firefighting instructions : Use water spray or fog for cooling exposed containers. In case of fire: Evacuate

area. Fight fire remotely due to the risk of explosion.

Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory

protection. Wear self-contained breathing apparatus when entering area unless

atmosphere is proved to be safe.

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergencyprocedures

General measures : Avoid contact with skin, eyes and clothing. Do not breathe vapour, gas, or spray.

The propellant gas in the container is a simple asphyxiant. If the container is

manipulated, punctured, or if it leaks, the gas may cause asphyxiation in confined

spaces.

6.1.1. For non-emergency personnel

Protective equipment : Use appropriate personal protection equipment (PPE). For further information

refer to section 8: "Exposure controls/personal protection".

Emergency procedures

6.1.2. For emergency responders

Protective equipment : Equip cleanup crew with proper protection. For further information refer to

: Evacuate unnecessary personnel.

section 8: "Exposure controls/personal protection".

Emergency procedures : Upon arrival at the scene, a first responder is expected to recognize the presence

of dangerous goods, protect oneself and the public, secure the area, and call for

the assistance of trained personnel as soon as conditions permit.

#### 6.2. Environmental precautions

Prevent entry to sewers and public waters.

#### 6.3. Methods and material for containment and cleaning up

For containment : Stop leak if safe to do so. Contain any spills with dikes or absorbents to prevent

migration and entry into sewers or streams.

Methods for cleaning up : Isolate area until gas has dispersed. Check oxygen content before entering area.

Clean up spills immediately and dispose of waste safely. Absorb spillage to prevent

material damage.

#### 6.4. Reference to other sections

See Section 8, Exposure Controls and Personal Protection. See Section 13, Disposal Considerations.

### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

Additional hazards when processed : Pressurized container: Do not pierce or burn, even after use. Do not puncture or

incinerate container. Aerosol dispensers and receptacles, small, containing gas (gas cartridges); asphyxiant. May displace oxygen and cause rapid suffocation. May

cause drowsiness or dizziness. Do not pierce or burn, even afteruse.

Hygiene measures : Handle in accordance with good industrial hygiene and safety procedures. Wash

hands and other exposed areas with mild soap and water before eating, drinking, or smoking and again when leaving work. Do not eat, drink or smoke when using

this product.

#### 7.2. Conditions for safe storage, including any incompatibilities

Technical measures : Comply with applicable regulations.

Storage conditions : Store in a dry, cool and well-ventilated place. Keep container tightly closed. Protect

from freezing. Keep away from heat, hot surfaces, sparks, open flames and other

ignition sources. No smoking.

Incompatible products : Strong acids. Strong bases. Strong oxidizers. Alkaline earth metals. Powdered

metals. Ammonia. Peroxides.
