2. Hazards Identification

EMERGENCY OVERVIEW

Risk of serious damage to eyes May cause sensitization by skin contact Irritating to respiratory system and skin

OSHA Regulatory Status Consumer Products as defined by the U.S. Consumer Product Safety Act which are used

as intended (typical consumer duration and frequency) are exempt from the OSHA Hazard Communication Standard. When used in a professional setting (at a much higher frequency and duration than a typical consumer) this material would be considered hazardous by the

OSHA Hazard Communication Standard (29 CFR 1910.1200).

WHMIS Not subject to WHMIS classification.

Principle Routes of Exposure Eye Contact. Skin Contact. Inhalation.

General Hazards

This is a personal care or cosmetic product that is safe for consumers and other users

4. First aid measures

General advice When symptoms persist or in all cases of doubt seek medical advice.

Eye Contact Hair colorants can cause severe allergic reactions. Rinse immediately with plenty of water,

also under the eyelids, for at least 15 minutes. Remove contact lenses, if present, after the

first 5 minutes, then continue rinsing. Consult a physician. Get medical attention

immediately if symptoms occur.

Skin Contact Hair colorants can cause severe allergic reactions. If skin problems occur, discontinue use.

Wash off immediately with soap and plenty of water. Remove and wash contaminated

clothing before re-use. If symptoms persist, call a physician.

Clean mouth with water and afterwards drink plenty of water. Do NOT induce vomiting. If Ingestion

symptoms persist, call a physician.

Move to fresh air. Get medical attention if irritation persists. Inhalation

Protection of First-aiders Use personal protective equipment.

Most important symptoms/effects,

acute and delayed

None known.

Notes to Physician Treat symptomatically.

5. Fire-fighting measures

Special protective equipment for

fire-fighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Revision Date: 27-Nov-2013

6. Accidental release measures

Personal precautions Avoid contact with skin, eyes and inhalation of vapors.

Advice for emergency responders Use personal protective equipment.

Environmental PrecautionsHousehold: Do not discharge product into natural waters without pre-treatment or

adequate dilution. Non-household: Should not be released into the environment.

Methods for containment Non-household: Prevent further leakage or spillage if safe to do so. Prevent product from

entering drains.

Methods for cleaning up Non-household: Contain spillage, and then collect with non-combustible absorbent

material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for

disposal according to local / national regulations (see section 13).

7. Handling and Storage

Advice on safe handling Keep out of the reach of children. Observe label precautions.

Technical measures/Storage conditions

Keep out of the reach of children. Keep containers tightly closed in a dry, cool and

well-ventilated place.

Engineering Measures Not applicable.

Personal protective equipment

Eye protection Safety glasses with side-shields. If splashes are likely to occur, wear:. Tightly fitting safety

goggles.

Hand protection Rubber/latex/neoprene or other suitable chemical resistant gloves.

Skin and Body Protection Wear protective gloves/clothing.

Respiratory protection Use only with adequate ventilation.

Thermal hazards Not applicable.

Hygiene measures Handle in accordance with good industrial hygiene and safety practice. Use personal

protective equipment as required.

Environmental exposure controls See section 6 for more information.
