Section 4: First Aid Measures

General Advice	Medical Conditions Aggravated by Exposure: Pre-existing skin disorders may be aggravated by long-term use.
If Inhaled	Move to fresh air.
In Case of Skin Contact	Flush eyes with plenty of water to ensure complete flushing. If irritation persists, seek medical attention.
In Case of Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes
If Swallowed	Drink enough water to dilute. Contact a physician or poison control center.

Section 5: Fire Fighting Measures

Suitable Extinguishing Media	CO2, Foam, Dry Chemical, and Water Spray
Special Hazards Arising From the Substance/Mixture	Closed containers exposed to excessive heat may rupture.
Special PPE and/or Precautions for Firefighters	Fire should be fought from a safe distance. Firefighters should wear full face, self-contained breathing apparatus and full protective clothing.

Section 6: Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures	See Section 5 for fire fighting information. See the Hazard Identification Section for Significant Hazards. See Section 4 for First Aid Advice. See Section 8 for advice on the minimum requirements for personal protective equipment. Additional protective measures may be necessary, depending on the specific circumstances and/or the expert judgment of the emergency responders
Methods and Materials Used for Containment	Land Spill: Spilled product in large quantities present a slipping hazard on hard surfaces. Water Spill: Stop leak if you can do it without risk. Confine the spill immediately with booms. Warn other shipping. Water spill and land spill recommendations are based on the most likely spill scenario for this material; however, geographic conditions, wind, temperature, (and in the case of a water spill) wave and current direction and speed may greatly influence the appropriate action to be taken. For this reason, local experts should be consulted. Note: Local regulations may prescribe or limit action to be taken. Prevent entry into waterways, sewers, basements or confined areas. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. US regulations require reporting releases of this material to the environment which exceed the applicable reportable quantity or oil spills which could reach any waterway including intermittent dry creeks. The National Response Center can be reached at (800)424-8802.
