# **SAFETY DATA SHEET**

Date of issue/Date of revision 1 May 2016 Version 3

| Section 1. Identification        |   |  |
|----------------------------------|---|--|
| Product name                     | : DEFIN SGL ABASE 9486  |  |
| Product code                     | : 00405040  |  |
| Other means of<br>identification | : Not available.  |  |
| Product type                     | : Liquid.   |  |
| Relevant identified uses of      | the substance or mixture and uses advised against                               |  |
| Product use                      | : Industrial applications, Used by spraying.                                    |  |
| Use of the substance/<br>mixture | : Coating.  |  |
| Uses advised against             | : Not applicable.   |  |
| Manufacturer                     | : PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272                 |  |
| Emergency telephone<br>number    | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>01-800-00-21-400 (Mexico) |  |
| Technical Phone Number           | : 1-800-441-9695 (8:00 am to 5:00 pm EST)                                       |  |

# Section 2. Hazards identification

| OSHA/HCS status                            | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|--|
| Classification of the substance or mixture | : Not classified.  |
|  | Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 31.7%   |
| GHS label elements                         |  |
| Signal word                                | : No signal word.  |
| Hazard statements                          | : No known significant effects or critical hazards.  |
| Precautionary statements                   |  |
| Prevention                                 | : Not applicable.  |
|  | : Not applicable.  |

Product name DEFIN SGL ABASE 9486

# Section 2. Hazards identification

|                                     | Photosensitive agents : In case of accidental eye contact, avoid concurrent exposure to<br>the sun or other sources of UV light which may increase the sensitivity of the eyes. In<br>case of accidental skin contact, avoid concurrent exposure to the sun or other sources<br>of UV light which may increase the sensitivity of skin. |
|-------------------------------------|---|
| Storage                             | : Not applicable.   |
| Disposal                            | : Not applicable.   |
| Supplemental label elements         | : Emits toxic fumes when heated.  |
| Hazards not otherwise<br>classified | : None known.   |

# Section 3. Composition/information on ingredients

| Substance/mixture | : | Mixture |
|-------------------|---|---------|
| Product name      |   | DEFIN S |

DEFIN SGL ABASE 9486

| Ingredient name                    | %    | CAS number |
|------------------------------------|------|------------|
| methenamine 3-chloroallylochloride | <1.0 | 4080-31-3  |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

### Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.</li> <li>In case of accidental eye contact, avoid concurrent exposure to the sun or other sources of UV light which may increase the sensitivity of the eyes.</li> </ul> |
|--------------|---|
| Inhalation   | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.  |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.</li> <li>Case of accidental skin contact, avoid concurrent exposure to the sun or other sources of UV light which may increase the sensitivity of skin.</li> </ul>            |
| Ingestion    | : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.   |

### Most important symptoms/effects, acute and delayed

## Product name DEFIN SGL ABASE 9486

# Section 4. First aid measures

| Potential acute health effects         Eye contact       :       No known significant effects or critical hazards.         Inhalation       :       No known significant effects or critical hazards.         Skin contact       :       No known significant effects or critical hazards.         Ingestion       :       No known significant effects or critical hazards.         Over-exposure signs/symptoms       .       No specific data.         Eye contact       :       No specific data.         Inhalation       :       No specific data.         Inhalation       :       No specific data.         Inhalation       :       No specific data.         Ingestion       :       No specific data.         Ingestion       :       No specific data.         Ingestion       :       No specific data.         Indication of immediate medical attention and special treatment needed, if necessary         Notes to physician       :       Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.         Specific treatments       :       No specific treatment.         Protection of first-aiders       :       No action shall be taken involving any personal risk or without suitable training. |                                |  |

### See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide  |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

# Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | vacuate surrou   | te taken involving any personal risk or without suitable training.<br>nding areas. Keep unnecessary and unprotected personnel from<br>t touch or walk through spilled material. Put on appropriate personal<br>ment.   |
|--------------------------------|--|--|
| For emergency responders       |  | thing is required to deal with the spillage, take note of any information in table and unsuitable materials. See also the information in "For non-onnel".  |
| Environmental precautions      | nd sewers. Inf   | of spilled material and runoff and contact with soil, waterways, drains<br>orm the relevant authorities if the product has caused environmental<br>s, waterways, soil or air).   |
| Methods and materials for co   | <u>nment and cle</u>   | aning up   |
| Small spill                    | water-soluble.   | but risk. Move containers from spill area. Dilute with water and mop up<br>Alternatively, or if water-insoluble, absorb with an inert dry material and<br>opriate waste disposal container. Dispose of via a licensed waste<br>tor.  |
| Large spill                    | ater courses, b<br>lant or proceed<br>bsorbent mater<br>ontainer for dis<br>censed waste o | but risk. Move containers from spill area. Prevent entry into sewers,<br>assements or confined areas. Wash spillages into an effluent treatment<br>as follows. Contain and collect spillage with non-combustible,<br>ial e.g. sand, earth, vermiculite or diatomaceous earth and place in<br>posal according to local regulations (see Section 13). Dispose of via a<br>lisposal contractor. Note: see Section 1 for emergency contact<br>Section 13 for waste disposal. |

# Section 7. Handling and storage

| Precautions for safe handling                                      |   |                          |
|--|---|--------------------------|
| Protective measures  | Put on appropriate personal protective equipment (see Section 8).   |                          |
| Special precautions  | If this material is part of a multiple component system, read the Safety Data Sheet(s the other component or components before blending as the resulting mixture may h the hazards of all of its parts.   |                          |
| Advice on general occupational hygiene                             | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eatind drinking and smoking. Remove contaminated clothing and protective equipment be entering eating areas. See also Section 8 for additional information on hygiene measures.  |                          |
| Conditions for safe storage,<br>including any<br>incompatibilities | Do not store below the following temperature: 5°C (41°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, of and well-ventilated area, away from incompatible materials (see Section 10) and for and drink. Keep container tightly closed and sealed until ready for use. Containers have been opened must be carefully resealed and kept upright to prevent leakage. not store in unlabeled containers. Use appropriate containment to avoid environme contamination. | cool<br>od<br>that<br>Do |

| IPEL  | PEL = Internal Permissible Exposure Limit TI                                   |      | = Total dust   |  |  |

- IPEL = Internal Permissible Exposure Limit OSHA = Occupational Safety and Health Administration.
  - R = Respirable
  - Z = OSHA 29 CFR 1910.1200 Subpart Z Toxic and Hazardous Substances

### Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures | : | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness of<br>the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to appropriate monitoring standards.<br>Reference to national guidance documents for methods for the determination of<br>hazardous substances will also be required. |
|-----------------------------------|---|---|
| Appropriate engineering controls  | : | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
| Environmental exposure controls   | : | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.   |
|                                   |   |   |

### Individual protection measures

| individual protootion mode                    |   |
|---|---|
| Hygiene measures                              | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection<br><u>Skin protection</u> | : Safety glasses with side shields.   |
| Hand protection                               | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is <u>necessary</u> .   |
| Gloves  | : polyethylene  |
| Body protection                               | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Other skin protection                         | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |

Product name DEFIN SGL ABASE 9486

# Section 8. Exposure controls/personal protection

| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

### Mobility in soil

Soil/water partition coefficient (Koc)

: Not available.

# Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

Health : 1 \* Flammability : 0 Physical hazards : 0

(\*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
