

Pegasus International, Inc.

Material Safety Data Sheet

#2001000

Identity: Dollar General Antibacterial Foaming Disinfectant Bathroom Cleaner
EPA 1839-84-63546

Section I

Company Name and Address:
Pegasus International, Inc.
400 Commerce Drive
Suite A
Fort Washington, PA 19034

**Emergency Technical Information/
Telephone Numbers:**
Contact: Frank Terranova
(215) 643-9177 - Day
(215) 368-6997 - Night
Alternate Emergency #:
(312) 501-2437

Date Revised:
June 16, 1999

Signature (Optional)

Section II

Hazard	Component (inc. CAS#)	OSHA PEL	ACHIH TLV	other limits	% (opt)
4	Propane, 74-98-6 (propellant)	1000 ppm	ne	ne	3
4	Isobutane, 75-28-5 (propellant)	ne	ne	ne	17

Only the hazardous, toxic etc. materials that are required to be reported are listed above. Chemicals which have hazards in their pure forms may have less effect when diluted in a product. This MSDS is intended to be used by the Marketer in preparation of their own MSDS. This information is intended to be used by warehouse, transportation, or research staff, not as a general document for consumer related issues.

- 1) eye irritant
- 2) skin irritant
- 3) respiratory irritant
- 4) flammable or combustible
- 5) toxic
- 6) other

(NE = Not established in section II)

Section III

Boiling Point: 200° F
Vapor Pressure: NA
Vapor Density: (air = 1) >1
Solubility in water: Complete
Appearance At 70°F: Clear Liquid

Aerosol Density: (H₂O = 1) - Approx. 0.81
Melting Point: NA
pH: 11.8
Evaporation Rate: Slower than Ethyl Ether
Volatiles: 90% (by weight)

NA = Non Applicable in Section III
ND = Not Determined

Section IV - Fire and Explosion Hazard Data

Flash Point: >200°F. Flammable Limits - NA

Extinguishing Media: CO₂, Dry Chemical, Synthetic Foam, or Water. Type BC or ABC Extinguishers

Special Fire Fighting Procedures: Use self-contained breathing apparatus for maximum respiratory protection. Water may be used to cool containers if not ruptured or leaking.

Unusual Fire and Explosion Hazards: Strong acids and bases with aluminium to form hydrogen which is explosive if ignited. Dust may be present an explosion hazard. Fluorocarbons will develop pressure in containers heated above 75°F.

Section V - Reactivity Data

Stability: Stable

Conditions to Avoid: Temperatures over 120°F

Incompatibility/Materials to Avoid: Anionic materials, strong oxidizing agents

Hazardous Polymerization or Decomposition: Will not occur at ambient temperatures

Section VI - Health Hazard Data

Routes of Entry/Health Hazards

Inhalation: If dust, vapors or mist cause distress, remove to fresh air. Use oxygen or artificial respiration, if needed.

Skin: Wash skin off and remove contaminated clothing. Do not reuse contaminated clothing.

Eyes: Flush eyes immediately with plenty of water for at least 15 minutes.

Ingestion: If swallowed, consult a physician immediately.

Carcinogenicity: NTP: No IARC Monographs: No

Signs and Symptoms of Exposure: Contact with eyes causes irritation. Prolonged or repeated contact with skin may cause irritation. Dusts, vapors, or mists may irritate respiratory passages. If corrosive, (See Section I), contact may cause chemical burns. If alcohol or other solvents are present above TLV, (See Section II), vapors may cause drowsiness, nausea, loss of motor skills, or disorientation.

Medical Conditions Generally Aggravated by Exposure: None known

Emergency First Aid Procedures: Wash skin with soap and water, or flush eyes with water for 15 minutes. If ingested, call a physician immediately. Induce vomiting as directed by medical personnel. Never give anything by mouth to an unconscious person. If mist, fog or vapors cause discomfort, remove to fresh air and ventilate area. If irritation or distress persists, seek medical attention.

Section VII - Precautions for Safe Handling and Use

Steps to be taken in case material is released or spilled: Contain all spills and leaks to prevent discharge to the environment. Ventilate area. If flammable or combustible, (See Section I), avoid spark, fires, open flame and use non-sparking equipment. If strong acid, (See Section III), carefully neutralize with lime, sodium carbonate or sodium bicarbonate. If a small spill, soak up with absorbent, shovel into waste containers. Flush area with water. If a large spill, recover spilled material for reprocessing or disposal.

Waste Disposal Method: Recover liquid or dispose waste material, (incineration is preferred), in accordance with all applicable federal, state, and local regulations and laws. Material collected with absorbent may be disposed of in a permitted landfill in accordance with all applicable federal, state and local regulations and laws.

Precautions to be taken in handling and storage: Avoid overheating. (See Section III) Store in a cool, well ventilated area. If flammable or combustible, (See Section I), avoid sparks, fires, and open flames. Ground equipment when transferring or using material

Other Precautions: NA

Section VIII - Control Measures

Respiratory Protection: If vapors, fumes, or dusts are present use a MSHA or NIOSH approved respirator, a fresh air breathing apparatus, or a self-contained breathing apparatus.

Ventilation: Provide adequate ventilation. Keep hazardous ingredients below their TLV.

Mechanical: NA

Local Exhaust: NA

Special/Other: NA

Protective Gloves: Recommended if handling large spills

Eye Protection: Wear goggles or full face shield when handling to avoid contact with face and eyes. Recommended if handling large spills

Other protective clothing or equipment: Recommended if handling large spills.

Work and Hygienic Practices: Wash hands before eating if material is contacted

Notes: NA = Not Available

NE = None Established
