### 4. FIRST AID MEASURES

Eye Contact Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If

irritation persists, call a physician.

**Skin Contact** Wash off immediately with plenty of water for at least 15 minutes. Remove and wash

contaminated clothing before re-use. Consult a physician.

**Inhalation** Move to fresh air. If not breathing, give artificial respiration. Administer oxygen if breathing

is difficult. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation.

Seek immediate medical attention/advice.

**Ingestion** Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Drink

plenty of water. Call a physician immediately.

Notes to Physician Treat symptomatically. May cause sensitization of susceptible persons.

Protection of First-aiders Remove all sources of ignition. Use personal protective equipment.

# **5. FIRE-FIGHTING MEASURES**

Flammable Properties Flammable liquid.

Flash Point 55.4 °F / 13 °C

**Suitable Extinguishing Media** Dry chemical, CO 2, water spray or alcohol-resistant foam.

**Explosion Data** 

Sensitivity to Mechanical Impact None.
Sensitivity to Static Discharge Yes.

Specific Hazards Arising from the

Chemical

Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back. Most vapors are heavier than air. They will spread along ground and collect in

low or confined areas (sewers, basements, tanks).

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

NFPA Health Hazard 2 Flammability 3 Instability 2 Physical and Chemical Hazards -

HMIS Health Hazard 2\* Flammability 3 Physical Hazard 2 Personal Protection X

\*Indicates a chronic health hazard.

# 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use personal protective equipment. Avoid contact with skin,

eyes and clothing.

**Environmental Precautions** Prevent product from entering drains. Do not flush into surface water or sanitary sewer

system.

Methods for Containment Prevent further leakage or spillage if safe to do so. Dike far ahead of liquid spill for later

disposal.

Methods for Cleaning Up Dam up. Use personal protective equipment. Soak up with inert absorbent material (e.g.

sand, silica gel, acid binder, universal binder, sawdust). Take up mechanically and collect in

suitable container for disposal.

Other Information Water spray may reduce vapor; but may not prevent ignition in closed spaces.

# 7. HANDLING AND STORAGE

**Handling** Ensure adequate ventilation. Keep away from open flames, hot surfaces and sources of

ignition. Take precautionary measures against static discharges. To avoid ignition of vapors by static electricity discharge, all metal parts of the equipment must be grounded. Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Avoid breathing

vapors or mists.

Storage Keep containers tightly closed in a cool, well-ventilated place. Keep in properly labeled

containers.
