carbon dioxide carbon monoxide

Specific fire-fighting methods

: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure

### Section 6. Accidental release measures

#### **Product AS SOLD**

Personal precautions

: Eliminate all ignition sources. Use personal protective equipment as required. Do not touch or walk through spilled material.

Environmental precautions Methods for cleaning up

: Avoid contact of large amounts of spilled material and runoff with soil and surface waterways.

: If emergency personnel are not present, contain and collect small spillages with non-combustible absorbent material, e.g. sand, earth or other suitable material and place in a suitable container for disposal. Use a water rinse for final clean-up.

: Wear eye protection.

Hand protection

: Use chemical-resistant, impervious gloves.

Skin protection

: Use suitable protective equipment.

Respiratory protection

: A respirator is not needed under normal and intended conditions of product use.
