Revision Date: 11-13-2015 Product Code: 1510-001

1. IDENTIFICATION

Product Name STANTEST 2.8 ALKYD ENAMEL SAFETY YELLOW

 Product Code
 1510-001

 Document ID
 G1510-001

Revision Number 2

Prior Version Date 08-31-2015

Intended Use Industrial Maintenance Coating
Restrictions On Use For Industrial Use Only

Chemical Family Alkyd Enamel

Chemical Manufacturer / Importer JONES-BLAIR® Company, LLC

2728 Empire Central Dallas, TX 75235 1-214-353-1600

Emergency Telephone Number: ChemTrec Center 1-800-424-9300

International: 703-527-3887

2. HAZARD(S) IDENTIFICATION

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

Hazard Pictograms

GHS Classification Skin Sensitisation Category 1

Flammable Liquid Category 2 Skin Corrosion/Irritation Category 2

Serious Eye Damage/Eye Irritation Category 2

Carcinogenicity Category 2

Signal Word Danger

Hazard Statements Highly flammable liquid and vapour. Causes skin irritation. May cause an

allergic skin reaction. Causes serious eye irritation. Suspected of causing

cancer.

Precautionary Statements

Prevention Obtain special instructions before use. Do not handle until all safety precautions

have been read and understood. Keep away from heat, sparks, open flames and hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical, ventilating, and lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing dust, fume, mist, vapours or spray. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves, protective clothing, eye protection and face protection. Use personal protective equipment as

required.

Revision Date: 11-13-2015 Product Code: 1510-001

Response IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.

Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF exposed or concerned: Get medical attention. If skin irritation or rash occurs: Get medical attention. If eye irritation persists: Get medical attention. Take off contaminated clothing and wash before reuse. In case of fire: Use alcohol resistant foam, carbon dioxide, dry chemical, or water spray for

extinction.

Storage Keep container tightly closed. Store in a well-ventilated place. Keep cool. Store

locked up.

Disposal Dispose of contents and container in accordance with all local, regional,

national and international regulations.

Hazards Not Otherwise Classified (HNOC)

Not applicable

Additional Information

Not applicable

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Component	CAS#	<u>%</u>	
tert-butyl acetate	540-88-5	15 - 40	
Parachlorobenzotrifluoride (PCBTF)	98-56-6	5 - 10	
Ethylene glycol mono-n-butyl ether	111-76-2	3 - 7	
Titanium dioxide	13463-67-7	1 - 5	
Light aromatic solvent naphtha	64742-95-6	1 - 5	
1,2,4-Trimethylbenzene	95-63-6	0.5 - 1.5	
4-Methyl-2-pentanone	108-10-1	0.1 - 1	
Methyl Ethyl Ketoxime	96-29-7	0.1 - 1	
Ethylbenzene	100-41-4	0.1 - 1	

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. FIRST-AID MEASURES

Inhalation Remove individual to fresh air after an airborne exposure if any symptoms develop as

a precautionary measure.

Eye Contact In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.

Get medical attention immediately.

Skin Contact Wash with soap and water. Remove contaminated clothing and launder. Get medical

attention if irritation develops or persists.

Ingestion If swallowed, do not induce vomiting. Get medical attention immediately. Induce

vomiting as a last measure. Induced vomiting may lead to aspiration of the material

into the lungs potentially causing chemical pneumonitis that may be fatal.

Most Important Acute Symptoms Not Available

and Effects

Most Important Delayed Symptoms Not Available

and Effects

Special treatment needed: No additional first aid information available

Revision Date: 11-13-2015 Product Code: 1510-001

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media Use alcohol resistant foam, carbon dioxide, or dry chemical

extinguishing agents. Water spray or fog may also be effective for extinguishing if swept across the base of the fire. Water can also be

used to absorb heat and minimize fire damage.

Unsuitable Extinguishing Media Fire and/or Explosion Hazards

No data available

Vapors may be ignited by heat, sparks, flames or other sources of ignition at or above the low flash point giving rise to a fire (Class B). Vapors are heavier than air and may travel to a source of ignition and

flash back. Container may explode in heat of fire.

Hazardous Combustion Products Special Protective Equipment and Precautions for Fire-Fighters

Carbon dioxide, Carbon monoxide, Toxic fumes, Toxic gases Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Flammable component(s) of this material may be lighter than water and burn while floating on the surface.

Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous

vapors and decomposition products.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section VIII of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill. Prevent the spread of any spill to minimize harm to human health and

Methods and Material for Containment and Cleaning Up

the environment if safe to do so. Dike with suitable absorbent material. Gather and store in a sealed container pending disposal. Shut off ignition sources; including electrical equipment and flames. Do not allow smoking in the area.

7. HANDLING AND STORAGE

Precautions for Safe Handling Harmful or irritating material. Avoid contacting and avoid breathing the

material. Use only in a well ventilated area. Do not get in eyes, on skin

and clothing.

Conditions for Safe Storage Store in a cool dry place. Keep container(s) closed. Keep away from

sources of ignition.

Materials to Avoid/Chemical

Incompatibility

Oxidizing agents, Caustics (bases, alkalis), Acids

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits

Chemical Component	OSHA PEL	ACGIH TLV-TWA	ACGIH STEL
tert-butyl acetate	200ppm; 950mg/m³ TWA	200ppm TWA	
Butoxy Ethanol	50 ppm TWA; 240 mg/m³ TWA	20 ppm TWA; 97 mg/m³ TWA	
Titanium dioxide	15 mg/m ³ TWA (total	10 mg/m³ TWA	

Revision Date: 11-13-2015 Product Code: 1510-001

	dust)		
1,2,4-Trimethylbenzene		25ppm; 123mg/m³ TWA	
Ethylbenzene	100 ppm TWA; 435 mg/m³ TWA	100 ppm TWA; 434 mg/m³ TWA	125 ppm STEL; 543 mg/m³ STEL

AppropriateUse local exhaust ventilation or other engineering controls to minimize exposure.

Engineering Controls Engineering controls must be designed to meet the OSHA chemical specific standard in

29 CFR 1910. Explosion proof exhaust ventilation should be used.

Respiratory Protection General or local exhaust ventilation is the preferred means of protection. In cases where

ventilation is inadequate, respiratory protection may be required to avoid overexposure.

Follow respirator manufacturer's directions for respirator use.

Eye Protection Wear safety glasses with side shields when handling this product. Wear additional eye

protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid, or airborne material. Have an eye wash

station available.

Impervious rubber

Skin Protection Where use can result in skin contact, practice good personal hygiene. Wash hands and

other exposed areas with mild soap and water before eating, drinking, and when leaving

work. Clothing suitable to prevent skin contact.

Other Protective

Equipment General Hygiene

'

Do not get in eyes, on skin and clothing.

10. STABILITY AND REACTIVITY

Revision Date: 11-13-2015 Product Code: 1510-001

Chemical stability

.

Stable under normal conditions.

Possibility of Hazardous Reactions Conditions to Avoid

No data available

Sparks, open flame, other ignition sources, and elevated temperatures. Elevated temperatures. Contamination.

Incompatible Materials

Oxidizing agents, Caustics (bases, alkalis), Acids

Hazardous Decomposition Products

Carbon dioxide, Carbon monoxide, Toxic fumes, Toxic gases

11. TOXICOLOGICAL INFORMATION

Routes of Exposure Inhalation

Skin contact Eye contact Skin absorption Ingestion

Immediate (Acute) Health Effects by Route of Exposure

Inhalation Irritation Causes nose and throat irritation. Inhalation of dusts produced during

cutting, grinding or sanding of this product may cause irritation of the

respiratory tract.

Inhalation Toxicity Vapor harmful. May affect the brain or nervous system causing dizziness,

headache or nausea.

Skin Contact Causes skin irritation.

Skin Absorption May be harmful if absorbed through skin.

Eye Contact Causes eye irritation.

Ingestion Toxicity Harmful if swallowed. Aspiration of material into the lungs can cause

chemical pneumonitis which can be fatal.

Long-Term (Chronic) Health Effects

Carcinogenicity

Contains Titanium Dioxide which is listed by IARC as possibly carcinogenic to humans (Group 2B). This listing is based on inadequate evidence with respect to humans and sufficient evidence in experimental animals. Possible cancer hazard. Contains ethylbenzene which may cause cancer based on animal data. (Risk of cancer depends on duration and level of exposure.)

Reproductive and Developmental

Toxicity

Contains butoxy ethanol which has been shown to cause harm to the fetus in laboratory animal studies. The relevance of these findings to humans is

uncertain.

Inhalation Upon prolonged and/or repeated exposure, can cause severe respiratory

irritation, dizziness, weakness, fatigue, nausea, headache and possible unconsciousness.NOTICE: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating

and inhaling the contents may be harmful or fatal.

Skin ContactContinued or prolonged contact may irritate the skin and cause a skin rash

(dermatitis).

Skin AbsorptionUpon prolonged or repeated exposure, harmful if absorbed through the skin. **Ingestion**Prolonged or repeated overexposure may cause central nervous system,

Froibinged of repeated overexposure may cause central hervous syste

kidney and liver damage.

13. DISPOSAL CONSIDERATIONS

Safe Handling of Waste Refer to other sections of this SDS to determine the toxicity and physical

characteristics of the material to determine the proper waste

identification and disposal in compliance with applicable regulations.

14. TRANSPORT INFORMATION

This section provides basic shipping classification information and does not contain all regulatory transportation details. Refer to all applicable regulations for domestic, international, air, vessel and ground transportation requirements and restrictions.

DOT Basic Description: Paint Hazard Class: 3
UN Number: UN1263

Packing Group:

Other: This product qualifies for a limited quantity exception per CFR173.150(b)(2) and

172.102 Special Provision 149 for inner containers <= 1.3 gallons (5L) and total gross

package wt <= 66 lbs (30kg).
