Strong oxidizing agents.

Hazardous Decomposition:

Methacrylate Monomer and Oxides of Carbon when burned.

Hazardous Polymerization:☐ May Occur ☒ Will Not Occur**Section 5. Health Hazard Data****Primary Routes of Entry:**☒ Inhalation ☒ Skin Absorption ☐ Ingestion ☒ Eyes**Carcinogen Listed In:**☐ NTP ☐ IARC Monograph ☐ OSHA ☒ Not Listed**Health Hazards:**

Acute: Eye Contact: Higher concentration can irritate eyes. May cause eye irritation or damage.

Skin Contact: Repeated or prolonged exposure may cause allergic skin rashes.

Inhalation: Possible temporary discomfort due to inhalation of dust concentration above the permissible exposure limit. Dust may cause irritation of the nose, throat, and lungs.

Ingestion: Higher concentration can irritate respiratory system.

Sub-Chronic Effects:

For Polymer: OSHA classifies this material as Particulates, Not Otherwise Classified. Eyes, skin and Respiratory tract may be irritated by gross overexposure to Particulates, Not Otherwise Classified, no matter how they are generated. Avoid inhalation of dust. Keep dust out of eyes to prevent possible irritation.

For decomposition product: Methyl Methacrylate Monomer; Liquid or high vapor concentration can irritate eyes, respiratory system and cause skin rashes. Prolonged exposure can lead to headaches, nausea, staggering gait, confusion, drowsiness and unconsciousness. Repeated and prolonged over exposure may cause permanent brain and nervous system damage, allergic skin rashes, eye corrosion and permanent injury, as well as changes in liver and kidney function or damage.

For Benzoyl Peroxide: repeated or prolonged contact may cause skin sensitization.

Emergency First Aid Procedures:

Eye Contact: Flush with water for 15 minutes, including under eyelids. Get medical help if discomfort persists.

Skin Contact: Wash with soap and water. Get medical help if discomfort persists.

Inhalation: Remove to fresh air. Get medical help if discomfort persists.

Ingestion: Rinse mouth out with water. Call doctor if amount was large.

Section 6. Control and Protective Measures**General:**

Dust collectors are recommended for handling powder in bulk.

Respiratory Protections (Specific Type):

Avoid breathing dust and mist. Use dust mask.

Protective Gloves:

Minimize contamination by following good industrial practice. Wearing nitrile, neoprene, pvc, latex or other impermeable gloves is recommended.

Eye Protection:

Use safety glasses and have eye flushing equipment immediately available.

Ventilation to be Used:

Use good local exhaust at processing equipment, including buffers, sanders, grinders and polishers. High temperature processing equipment should be well ventilated. Use explosion-proof equipment. Provide ventilation if necessary to control exposure levels below airborne exposure limits.

Other Protective Clothing and Equipment:

No special body protection is required under typical circumstances of use and handling. If necessary, refer to appropriate standards of Canada, the EC members states, or US OSHA. Provide eyewash, safety shower and impervious clothing are recommended. High temperature processing equipment should be well be ventilated.

Hygienic Work Practices:

Good Manufacturing Practices.

Section 7. Precautions for Safe Handling and Use / Leak Procedures**Steps to be Taken if Material is Spilled or Released:**

Before cleaning any spill or leak, individuals involved in spill clean-up must wear appropriate Personal Protective Equipment. Wear appropriate personal protective equipment (e.g., goggles, gloves). Sweep up to avoid slipping hazard. Keep airborne particulates at a minimum when cleaning up spills. Dispose of properly in accordance with local, state, and federal regulations. Wash all affected areas with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse.

Waste Disposal Methods:

Dispose in a landfill or incinerate according to Federal, State, and Local regulations.

Disposal of Empty Containers:

Reuse of empty drums or containers is not recommended. Employees should be advised of the potential hazards, due to residual material, associated with empty containers. It is our policy to discourage the reuse of empty containers and to dispose of all empty containers properly, in accordance with Federal, State, and Local regulations.
