SAFETY DATA SHEET

Joico Heat Set Blowout Perfecting Creme

1/9

Section 1. Identification

Product Name	: Joico Heat Set Blowout Perfecting Creme
Other means of identification	: Not available.
Recommended use	: Hair Care Product
Restrictions on use	: Use only as directed on the product label.
Manufacturer	: Zotos International, INC 100 Tokeneke Road, Darien, CT 06820 www.zotos.com
Validation date	: 3/25/2015.
In case of emergency	: (800) 584-8038 [24 Hours]
Telephone number	: (203) 656-7859 [8:30 a.m 5:00 p.m.]
Transportation Emergency	: Contact: CHEMTREC 1-800-424-9300 [US/Canada 24 Hours]
Product type	: Liquid.

Section 2. Hazards identification

Emergency overview

NOT EXPECTED TO PRODU INSTRUCTIONS FOR USE A		E SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED E FOLLOWED.
OSHA/HCS status	:	While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	:	Not classified.
		Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 94.8%
GHS label elements		
Signal word	1	No signal word.
Hazard statements	1	No known significant effects or critical hazards.
Precautionary statements		
General	:	Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.
Prevention	:	Not applicable.
Response	1	Not applicable.
Storage	1	Not applicable.
Disposal	1	Not applicable.
Hazards not otherwise classified	:	None known.

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

United States

Name	%	CAS number
2-Phenoxyethanol	1.00	122-99-6

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures			
Eye contact	 In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. May cause eye irritation. 		
Inhalation	: Move affected person to fresh air.		
Skin contact	 Prolonged or repeated contact with skin or mucous membrane may result in irritation symptoms, such as redness, blistering, dermatitis etc. Discontinue use of product Apply cold compresses to affected areas to relieve any discomfort Seek medical attention if irritation persists. 		
Ingestion	: Have conscious person drink several glasses of water or milk. Do not induce vomiting. Get medical attention if adverse health effects persist or are severe.		
Indication of immediate me	edical attention and special treatment needed, if necessary		
Notes to physician	: Treat symptomatically.		
Specific treatments	: No specific treatment.		
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.		

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media					
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.				
Unsuitable extinguishing media	: None known.				
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.				
Hazardous thermal decomposition products	Decomposition products may include the following materials: carbon dioxide carbon monoxide nitrogen oxides halogenated compounds				
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.				
Special protective equipment for fire-fighters	 Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. 8368 				
Date of issue/Date of revision	: 3/25/2015. Date of previous issue : No previous validation. Version : 0.01 2/9				

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures		
For non-emergency personnel	o action shall be taken involving any personal risk or without suitable traini vacuate surrounding areas. Keep unnecessary and unprotected personne ntering. Do not touch or walk through spilled material. Put on appropriate otective equipment.	l from
For emergency responders	specialised clothing is required to deal with the spillage, take note of any ir Section 8 on suitable and unsuitable materials. See also the information in nergency personnel".	
Environmental precautions	void dispersal of spilled material and runoff and contact with soil, waterway nd sewers. Inform the relevant authorities if the product has caused enviro ollution (sewers, waterways, soil or air).	
Methods and materials for co	ment and cleaning up	
Small spill	op leak if without risk. Dilute with water and mop up if water-soluble.	
Large spill	op leak if without risk. Contain and collect spillage with non-combustible, aterial e.g. sand, earth, vermiculite or diatomaceous earth and place in co sposal according to local regulations (see Section 13). Note: see Section nergency contact information and Section 13 for waste disposal.	ntainer for

Section 7. Handling and storage

Precautions for safe handling

r rooudiono for ouro nununi	9	
Protective measures	:	Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	:	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink.

Section 8. Exposure controls/personal protection

United States

```
Control parameters
```

```
Occupational exposure limits
```

None.

Appropriate engineering : controls	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.					
Environmental exposure : controls	trols they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipmed will be necessary to reduce emissions to acceptable levels.					
Individual protection measures						
Hygiene measures :	they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. rotection measures easures : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. 8368					
Date of issue/Date of revision	: 3/25/2015. Date of previous issue : No previous validation. Version : 0.01 3/9					

Section 8. Exposure controls/personal protection

Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection	
Hand protection	: Wear suitable gloves.
Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Consult local authorities for acceptable exposure limits.

Section 9. Physical and chemical properties

Appearance

Physical state	: Liquid. [Viscous liquid.]
Color	: Clear. Colorless.
Odor	: Odorless. Characteristic.
рН	6.5 to 7.5
Boiling point	: >100°C (>212°F)
Flash point	: Closed cup: Not applicable.
Relative density	: 1 to 1.15

Section 10. Stability and reactivity

Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
