

Product **NoAL Dental Tray Cleaner**

Product Code **NL1,
NL5**

Last Revision October 2013

Version 2

COMPANY DETAILS

COMPANY NAME: ADM – Australian Dental Manufacturing
ACN: 010 967 432

ADDRESS: 25 Billabong Street
Kenmore Hills
Brisbane, Qld 4069

TELEPHONE: 07 38781901
FAX: 07 38781903
EMAIL: info@austdent.com.au

EMERGENCY TELEPHONE NUMBER: 131 126

PRODUCT INFORMATION

PRODUCT NAME: NoAL Dental Tray Cleaner

Other Names	None
UN Number	None Allocated
Dangerous Goods Class	None Allocated
Sub Risk Class	Nil
Hazchem Code	None Allocated
Poison Schedule	None Allocated
Product Use	Dental Tray Cleaner
Pack Size	1, 5 Litre Bottle

COMPOSITION

Chemical Composition	CAS number	Proportion
HAZARDOUS INGREDIENTS:		None
NON HAZARDOUS INGREDIENTS:		Proportion
Sodium alkyl-sulphate	64771-72-8	25%
Ethylenediamine tetra-acetic acid (EDTA)	10378-23-21	10%

Product **NoAL Dental Tray Cleaner**

Product Code **NL1,
NL5**

Last Revision October 2013

Version 2

PHYSICAL AND CHEMICAL DATA

APPEARANCE:	Blue Liquid
ODOUR:	None
MELTING POINT:	Not Relevant
BOILING POINT:	Not Relevant
VAPOUR PRESSURE:	Not Relevant
SPECIFIC GRAVITY:	1.2
FLASH POINT:	Not Flammable
CORROSIVENESS:	Not Corrosive
SOLUBILITY:	Soluble in Water
MISCIBILITY:	Miscible in Oils
PH:	Slightly Alkaline

HEALTH HAZARDS IDENTIFICATION

This Product is not classified as hazardous according to criteria of NOHSC.

ACUTE EFFECTS

INGESTION:	<ul style="list-style-type: none"> May cause irritation to the gastro-intestinal tract. Early symptoms likely to be nausea, abdominal irritation, pain, vomiting, and diarrhoea.
EYE:	<ul style="list-style-type: none"> Momentary eye irritation with discomfort. Pain and swelling may occur. Prolonged exposure may cause temporary cornea damage.
SKIN:	<ul style="list-style-type: none"> May cause skin irritation. Prolonged occupational exposure may lead to dermatitis/eczema.
INHALED:	<ul style="list-style-type: none"> Product is nonvolatile. Misting of the product may cause upper airway irritation coughing or discomfort.
CHRONIC EFFECTS:	<ul style="list-style-type: none"> None known. Prolonged occupational skin exposure of the pure Sodium Alkyl Sulphate has caused eczema and dermatitis.

Product **NoAL Dental Tray Cleaner**

Product Code **NL1,
NL5**

Version 2

FIRST AID

INGESTION:

EYE:

SKIN:

INHALED:

- If swallowed, immediately give copious quantities of water. Don't induce vomiting. If vomiting occurs, ensure person's airway is clear and breathing of liquid does not occur.
- Never give anything by mouth to an unconscious person.
- Call a Physician if symptoms persist.
- Irrigate the eye with copious amounts of water for 15 minutes. Seek medical assistance if symptoms persist.
- Remove contaminated clothing immediately. Wash skin with large amounts of water until no evidence of product remains, at least 15 minutes.
- Wash clothing before re-use. If irritation or pain persists – seek medical attention.
- If inhaled, immediately remove to fresh air until fully recovered. Monitor for respiratory distress. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a Physician.

EXPOSURE CONTROLS/PERSONAL PROTECTION

In accordance with the criteria of NOHSC this Product is not classified as hazardous. No exposure limits are assigned for this specific material by the NOHSC.

When used at the normal dilution ratio no specific precautions are necessary.

CONCENTRATE

- The Product contains Sodium Alkyl Sulphate in aqueous medium. The ingredients are not volatile therefore airborne exposure limits are not relevant.
- When using the concentrate keep containers closed when not in use. Avoid skin and eye contact.
- There are no specific handling requirements however it has been reported in toxicological literature that long term occupational skin exposure may cause eczema/dermatitis. It is therefore recommended that appropriate gloves be used when handling the product.

Product **NoAL Dental Tray Cleaner**

Product Code **NL1,
NL5**

Last Revision October 2013

Version 2

COMBUSTIBILITY	
FIRE HAZARD & EXPLOSION:	<ul style="list-style-type: none"> • Non-Combustible Aqueous Liquid. • The ingredients will breakdown under fire conditions and the organic components may burn. • Fumes containing carbon dioxide, carbon monoxide and sulphur dioxide may be formed in large fires after the water has evaporated from the product. • The product is supplied in small packages. Not considered to be a fire risk.

ACCIDENTAL RELEASE MEASURES

- Slippery when spilt. Avoid accidents, clean up immediately.
- Wear protective equipment to prevent skin and eye contact.
- Wipe up small spills with paper toweling and dispose to bin. Prevent runoff to drains leading to waterways.
- Wash contaminated area liberally with water.
- For large spills use an absorbent (sand, soil, sawdust, inert material) seal in a properly labelled container for disposal.
- Disposal of waste must be in accordance with the Local Waste Disposal Authority.

HANDLING & STORAGE

- Product to be handled only by qualified staff in dental offices/laboratories.
- See product instructions for safe use
- Store in a cool dry place out of direct sunlight.
- Store away from strong oxidizing agents.
- Store between 4 - 40°C.
- Avoid contact with skins and eyes.
- Keep containers closed at all times, check regularly for leaks.
- Do not store together with food.
- Keep out of the reach of children.

Product NoAL Dental Tray Cleaner

Product Code NL1,
NL5

Last Revision October 2013

Version 2

Risk Phrases

R36: Irritating to eyes

R38: Irritating to skin

Safety Phrases

S2: Keep out of reach of children

S24/25: Avoid contact with skin and eyes

STABILITY & REACTIVITY

REACTIVITY:

Stable at normal temperatures and pressure.

CONDITIONS TO AVOID:

Avoid contact with incompatible materials.

INCOMPATIBLES:

Contains EDTA which reacts with strong oxidizing agents and may react with copper, copper alloys and nickel.

TOXICOLOGICAL INFORMATION

SYMPTOMS: No adverse health effects are expected if this product is handled in accordance with this Material Safety Data Sheet and the Product label/instructions.

If the product is spilled or mishandled, the following symptoms may occur:

Short Term Acute Effects:

INGESTION: Irritation to the gastro-intestinal tract. Nausea, abdominal irritation, pain vomiting, and diarrhea.

EYE CONTENT: Eye irritation with discomfort. Pain and swelling.

SKIN CONTACT: May cause irritation, may cause sensitization with some individuals. Will have a degreasing effect on the skin.

INHALATION: Product is nonvolatile. Misting with product may cause discomfort.

Long Term Effects:

No specific data is available for this product however the following information on the ingredients are presented.

Sodium Alkyl Sulphate

Oral LD50 (Rat)

500 – 5000 mg/Kg

Skin (Rabbit)

Irritant

Product **NoAL Dental Tray Cleaner**

Product Code **NL1,
NL5**

Last Revision October 2013

Version 2

Long term occupational skin exposure has reportedly caused eczema/dermatitis.

EDTA

IPR LD50 (Rat)	397 mg/kg
Oral LD50 (Mus)	30 mg/kg
IPR LD(50) (Mus)	250 mg/kg
IVN LD (50) (Mus)	28 mg/kg

ECOLOGICAL INFORMATION

- No specific toxicity data to aquatic organisms is available for this product.
- The ingredients are water-soluble and 100% biodegradable.
- EDTA complexes with trace metals and alkali earth metals
- In the short term EDTA is expected to mobilize trace metals in soils.
- Sodium Alkyl Sulphate is soluble and expected to leach from soils adding to the chemical and biological oxygen demand in the waterways.
- No long-term persistent effects are expected.
- Avoid contaminating waterways.

DISPOSAL CONSIDERATIONS

Dispose containers thoughtfully to landfill.

TRANSPORT INFORMATION

UN NUMBER:	None Allocated
DANGEROUS GOODS CLASS:	None classified.
SUB RISK CLASS:	No subsidiary risk.
HAZCHEM CODE:	None allocated.
PACKAGING GROUP	None Allocated

Not classified as Dangerous Goods for transport by road and rail.

Product is not regulated for shipping. No special storage or transport requirements are necessary.

Material Safety Data Sheet

Product **NoAL Dental Tray Cleaner**

Product Code **NL1,
NL5**
