# Section 2. Hazards identification

| OSHA/HCS status                            | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). |
|--|---|
| Classification of the substance or mixture | : FYE IRRITATION - Category 2B<br>SKIN SENSITIZATION - Category 1<br>CARCINOGENICITY - Category 2     |
|  | Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 13.4%                      |
| GHS label elements                         |   |
| Hazard pictograms                          |   |
| Signal word                                | : Warning   |

Product name PR 1782 B 2 #6 Part B

### Section 2. Hazards identification

| Hazard statements                   | : Causes eye irritation.   |
|-------------------------------------|--|
|                                     | May cause an allergic skin reaction.   |
|                                     | Suspected of causing cancer.   |
| Precautionary statements            |  |
| Prevention                          | : Obtain special instructions before use. Do not handle until all safety precautions have<br>been read and understood. Wear protective gloves. Wear eye or face protection.<br>Wear protective clothing. Avoid breathing dust. Wash hands thoroughly after handling.<br>Contaminated work clothing must not be allowed out of the workplace.   |
| Response                            | : IF exposed or concerned: Get medical attention. IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. |
| Storage                             | : Store locked up.   |
| Disposal                            | : Dispose of contents and container in accordance with all local, regional, national and international regulations.  |
| Supplemental label<br>elements      | : <b>1-component mixtures:</b> formaldehyde is released during curing. Formaldehyde may cause irreversible effects, is irritating to the mucous membranes and may cause skin sensitization. Avoid contact with skin and clothing. Wash thoroughly after handling. Emits toxic fumes when heated.   |
| Hazards not otherwise<br>classified | : Prolonged or repeated contact may dry skin and cause irritation.   |
| a                                   |  |

# Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture               |
|-------------------|-------------------------|
| Product name      | : PR 1782 B 2 #6 Part B |

| Ingredient name   | %                          | CAS number                       |
|---|----------------------------|----------------------------------|
| ethyl acetate<br>titanium dioxide   | ≥5.0 - ≤10<br>≥1.0 - ≤5.0  | 141-78-6<br>13463-67-7           |
| proprietary modified polysulfide polymer proprietary modified polysulfide polymer | ≥1.0 - ≤3.6<br>≥1.0 - ≤3.3 | Not available.<br>Not available. |
| proprietary modified polysulfide polymer  | ≥0.10 - ≤2.9               | Not available.                   |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Product name PR 1782 B 2 #6 Part B

# Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person. Description of necessary first aid measures

| Eye contact  | <ul> <li>Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids<br/>apart for at least 10 minutes and seek immediate medical advice.</li> </ul>  |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br/>personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water<br/>or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label. Keep<br/>person warm and at rest. Do NOT induce vomiting.</li> </ul>  |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effects | <u>S</u>  |
|--------------------------------|---|
| Eye contact                    | : 🖉 auses eye irritation.   |
| Inhalation                     | : No known significant effects or critical hazards.   |
| Skin contact                   | : Defatting to the skin. May cause skin dryness and irritation. May cause an allergic skin reaction.  |
| Ingestion                      | : No known significant effects or critical hazards.   |
| Over-exposure signs/sympto     | oms   |
| Eye contact                    | : Adverse symptoms may include the following:<br>irritation<br>watering<br>redness  |
| Inhalation                     | : No specific data.   |
| Skin contact                   | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking   |
| Ingestion                      | : No specific data.   |
| Indication of immediate media  | cal attention and special treatment needed, if necessary  |
| Notes to physician             | : Treat symptomatically. Contact poison treatment specialist immediately if large<br>quantities have been ingested or inhaled.  |
| Specific treatments            | : No specific treatment.  |
| Protection of first-aiders     | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.                 |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>halogenated compounds<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

# Section 6. Accidental release measures

| Personal precautions, protect  | <u>tiv</u> : | e equipment and emergency procedures  |
|--------------------------------|--------------|---|
| For non-emergency<br>personnel | :            | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Provide adequate ventilation.<br>Wear appropriate respirator when ventilation is inadequate. Put on appropriate<br>personal protective equipment.   |
| For emergency responders       | :            | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| Environmental precautions      |              | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).   |
| Methods and materials for co   | ont          | ainment and cleaning up   |
| Small spill                    | :            | Move containers from spill area. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Place spilled material in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                    | :            | Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
|                                |              | United States Page: 4/13  |

Product name PR 1782 B 2 #6 Part B

## Section 6. Accidental release measures

# Section 7. Handling and storage

| Precautions for safe handling                                      |   |
|--|---|
| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| Special precautions  | : If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.   |
| Advice on general<br>occupational hygiene                          | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Do not store below the following temperature: 5°C (41°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.  |

# Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits**

| Ingredient name                          | Exposure limits                                     |

specialist before handling this product.

: Appropriate footwear and any additional skin protection measures should be selected

based on the task being performed and the risks involved and should be approved by a

Product name PR 1782 B 2 #6 Part B

# Section 8. Exposure controls/personal protection

| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

# Section 10. Stability and reactivity

|                                    | United States Page: 7/13   |
|------------------------------------|--|
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.            |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.            |
| Chemical stability                 | : The product is stable.   |
| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients. |

Date of issue 19 April 2016 Version 7

Product name PR 1782 B 2 #6 Part B

### Section 10. Stability and reactivity

Refer to protective measures listed in sections 7 and 8.

|  | Incompatible materials           | : | Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
|--|----------------------------------|---|--|
| products aloxide, smoke, oxides of hitrogen. | Hazardous decomposition products | : | Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.        |

**Conclusion/Summary** : There are no data available on the mixture itself.

#### **Teratogenicity**

**Conclusion/Summary** : There are no data available on the mixture itself.

Specific target organ toxicity (single exposure)

## Section 11. Toxicological information

| Name                                     | Category   |
|--|------------|
| ethyl acetate                            | Category 3 |
| proprietary modified polysulfide polymer | Category 3 |
| proprietary modified polysulfide polymer | Category 3 |
| proprietary modified polysulfide polymer | Category 3 |

#### Specific target organ toxicity (repeated exposure)

Not available.

Target organs

: Contains material which causes damage to the following organs: brain, central nervous system (CNS).

Contains material which may cause damage to the following organs: upper respiratory tract, skin, eye, lens or cornea.

#### Aspiration hazard

Not available.

#### Information on the likely routes of exposure

#### Potential acute health effects

| r otoritiar addite rioartin erioota |  |
|-------------------------------------|--|
| Eye contact                         | : Zauses eye irritation.   |
| Inhalation                          | : No known significant effects or critical hazards.  |
| Skin contact                        | : Defatting to the skin. May cause skin dryness and irritation. May cause an allergic skin reaction.   |
| Ingestion                           | : No known significant effects or critical hazards.  |
| Over-exposure signs/sympto          | o <u>ms</u>  |
| Eye contact                         | : Adverse symptoms may include the following:<br>irritation<br>watering<br>redness   |
| Inhalation                          | : No specific data.  |
| Skin contact                        | : Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking  |
| Ingestion                           | : No specific data.  |
| Delayed and immediate effect        | s and also chronic effects from short and long term exposure   |
| Conclusion/Summary                  | : There are no data available on the mixture itself. <b>1-component mixtures:</b> formaldehyde is released during curing. Formaldehyde may cause irreversible effects, is irritating to the mucous membranes and may cause skin sensitization. Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness. Solvents may cause some of the above effects by absorption through the skin. There is some evidence that repeated exposure to organic solvent vapors in combination with constant loud noise can cause greater hearing loss than expected from exposure to noise alone. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, |

Product name PR 1782 B 2 #6 Part B

### Section 11. Toxicological information

delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

|                                | contact.   |  |
|--------------------------------|--|--|
| <u>Short term exposure</u>     |  |  |
| Potential immediate<br>effects | There are no data available on the mixture itself.   |  |
| Potential delayed effects      | There are no data available on the mixture itself.   |  |
| <u>Long term exposure</u>      |  |  |
| Potential immediate<br>effects | There are no data available on the mixture itself.   |  |
| Potential delayed effects      | There are no data available on the mixture itself.   |  |
| Potential chronic health effe  |  |  |
| General                        | Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |  |
| Carcinogenicity                | Suspected of causing cancer. Risk of cancer depends on duration and level of exposure.   |  |
| Mutagenicity                   | No known significant effects or critical hazards.  |  |
| Teratogenicity                 | No known significant effects or critical hazards.  |  |
| <b>Developmental effects</b>   | No known significant effects or critical hazards.  |  |
| Fertility effects              | No known significant effects or critical hazards.  |  |
| Numerical measures of toxic    |  |  |
| Acute toxicity estimates       |  |  |
| Not available.                 |  |  |

### Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures
