USE/DESCRIPTION	System Sizing Compound for Closed Loop System
------------------------	---

REVISION DATE
March 29, 2012

1

* Chronic
4 Severe
3 Serious

2 Moderate
1 Slight
0 Minimal

**See Hazards Identification Section of this MSDS
for more detailed information.**

0

4 May detonate-vacate area if materials are exposed to fire.	2 Violent chemical change possible-use hose stream from distance
3 Strong shock of heat may detonate-use monitors from behind explosion resistant barriers.	1 Unstable if heated-use precaution.
	0 Normally stable.

0

4 Extremely flammable. 1 Must be preheated
3 Ignites at normal temperature. to burn.
2 Ignites when moderately heated. 0 Will not burn.

Hazardous Ingredients	CAS#	%Range	ACGIH (TLV-TWA)	OSHA (PEL-TWA)	LD50 (Species/Route)	LC50 (Species)
Ionic Halide	7647-14-5	> 99	NE	NE	NE	NE

Eyes: May cause irritation and/or burning sensation.
Skin: Prolonged or repeated contact may cause skin irritation.
Inhalation: High mist concentrations may cause irritation to the eyes, nose, throat and respiratory tract.
Ingestion: Possibly harmful if swallowed.

Eyes: Flush with cool water for at least 15 minutes. If any irritation persists, seek medical attention.
Skin: Wash with soap and water. If irritation persists, call a physician or poison center.
Inhalation: Remove victim to fresh air. If irritation persists, call a physician or poison center.
Ingestion: DO NOT induce vomiting. Dilute by drinking several glasses of water. Never give anything by mouth to an unconscious victim. Call a physician or poison center immediately.

Flash Point (TCC): Non-Flammable **Explosive Limits:** Lower (LEL): NA Upper (UEL): NA
Flame Projection (Aerosol): NA
Hazardous Products of Combustion: Unknown but when strongly heated, as in a fire, this product may produce carbon monoxide.
Fire and Explosion Hazards: None known other than material can splatter above 212°F/100°C.
Extinguishing Media: Water fog, Alcohol foam, Carbon dioxide or Dry chemical.
Fire Fighting Instructions: Wear self-contained breathing apparatus w/full protective clothing. Do not release runoff from fire control methods to sewers or waterways.

Small Spills: Absorb spill with paper towel or similar absorbent. Flush residual with large amounts of water.
Large Spills: Spills should be collected to prevent contamination of waterways. Dike spill and recover quickly into suitable containers. Absorb spill with non-reactant absorbent like vermiculite or oil dry. Flush residual with large amounts of water.

7. HANDLING AND STORAGE

Keep this product in a properly labeled, tightly closed container. Do not allow this product to freeze, as containers may split or rupture. Do not store this material near any strong acids, bases, oxidizers, flammables or any other type of reactive material. Remove contaminated clothing and wash thoroughly with soap and water before reusing. Avoid contact with skin or eyes. Avoid breathing dust or mist. Wash hands and face with soap and water after using this product.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Eyes: Safety glasses or safety goggles are recommended.

Skin: Chemical resistant gloves are recommended.

Respiratory: Use with adequate ventilation and avoid breathing vapors.

Engineering Controls: Mechanical ventilation not normally required and local exhaust is generally adequate to maintain airborne concentrations below OSHA PELs.

Other Protective Clothing: Prevent prolonged or repeated skin contact by wearing protective clothing and an apron.

9. PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point: ND **Specific Gravity:** BD=1.2+/- (H₂O=1) **Vapor Pressure:** NA **Melting Point:** NA
Vapor Density: NA **Evaporation Rate:** NA **Solubility in Water:** +10% at 68F/20C **pH:** of a 1% solution- < 10
Appearance and Odor: Shite granular with no detectable scent.

10. STABILITY AND REACTIVITY

Hazardous Polymerization: Will not occur.

Hazardous Decomposition: There are no known hazardous decomposition products for this material unless the material is burned in which case undetermined evolution of toxic gases may occur.

Chemical Stability: Stable

Incompatibility: Strong Acids, Strong Alkalis, and strong oxidizers or any other type of reactive material.

11. TOXICOLOGICAL INFORMATION

Carcinogenicity (NTP/IARC/OSHA): None

California Proposition 65: Does this product contain chemical(s) known to the State of California to cause cancer and/or to cause birth defects or other reproductive harm? None

12. ECOLOGICAL INFORMATION

ND

13. DISPOSAL CONSIDERATIONS

Consult your local, state and federal regulations for proper disposal guidelines. Disposal regulations may be different for each state and/or locality.

14. TRANSPORT INFORMATION

DOT: For ground shipping within the USA: Non Regulated Materials

TDG: Available upon request

UN: Availabale upon request

15. REGULATORY INFORMATION

VOC (Volatile Organic Compounds): None

TSCA (Toxic Substances Control Act): Listed

SARA Title III Section 302 EHS: None

SARA Title III Section 311/312: Acute: Inhalation

SARA Title III Section 313 Toxic Chemicals: None

WHMIS Classification:

This product has been classified in accordance with the hazard criteria of the CPR (Controlled Products Regulations/ WHMIS) and the MSDS contains all the information required by the CPR.

16. OTHER INFORMATION

Read and follow all label directions and precautions before using this product. These products are intended for industrial and institutional use only. NOT FOR HOUSEHOLD USE OR RESALE. KEEP OUT OF REACH OF CHILDREN.
